

Nov. Gr. 2 Music

Content Area: **Music**
Course(s):
Time Period: **November**
Length: **4-5Weeks**
Status: **Published**

Unit Overview

Creating ★ Connecting ★ Performing ★ Responding

Students will explore what they know about music composition through singing.

Enduring Understandings

Music can be written in musical notation and expressed through our voices when we sing.

Essential Questions

How can we read music and use our voices to sing songs?

Instructional Strategies & Learning Activities

Objectives	Suggested Activities	Evaluations	Re
Respond to home tone and major and minor modes	Singing songs (including a cappella) with strong tonal feeling and songs in major and minor modes	Teacher observation	Grac
Demonstrate awareness of linear harmony	Singing canons and rounds	Performance assessment	Supp activ
Demonstrate rhythmic sensitivity to the beat, meter and duration	Moving to show melodic contour	Oral/Aural assessment Games	Chro

Identify and respond to register, melodic contour, patterns and phrases	<p>Follow notated melodies</p> <p>Recognizing and singing solfege syllables and demonstrating hand signs SOL, MI and LA</p> <p>Create rhythmic accompaniments for songs</p> <p>Visually representing and naming notes</p>		<p>Class pitch</p> <p><i>Hal Car</i></p> <p>Inte pitch</p>

Integration of Career Readiness, Life Literacies and Key Skills

WRK.9.1.2.CAP	Career Awareness and Planning
TECH.9.4.2.CI	Creativity and Innovation
TECH.9.4.2.CI.1	Demonstrate openness to new ideas and perspectives (e.g., 1.1.2.CR1a, 2.1.2.EH.1, 6.1.2.CivicsCM.2).
TECH.9.4.2.CT.3	Use a variety of types of thinking to solve problems (e.g., inductive, deductive).
	Different types of jobs require different knowledge and skills.

Technology and Design Integration

Students will interact with the unit using the Smartboard.

CS.CS	Computing Systems
CS.K-2.8.2.2.Ith.2	Explain the purpose of a product and its value.

Interdisciplinary Connections

DA.K-2.1.1.2.Cr	Creating
DA.K-2.1.1.2.Cr1	Generating and conceptualizing ideas.
DA.K-2.1.1.2.Cr1a	Demonstrate movement in response to a variety of sensory stimuli (e.g., music, imagery, objects) and suggest additional sources for movement ideas.
DA.K-2.1.1.2.Cr1b	Combine movements using the elements of dance to solve a movement problem.
DA.K-2.1.1.2.Pr4a	Perform planned and improvised movement sequences, with variations in direction (e.g., forward/backward, up/down, big/small, sideways, right/left, diagonal), spatial level (e.g., low, middle, high), and spatial pathways (e.g., straight, curved, circular, zigzag), alone and in small groups.
DA.K-2.1.1.2.Pr4b	Perform planned and improvised movement sequences, with variations in tempo, meter, and rhythm, alone and in small groups.
DA.K-2.1.1.2.Pr5a	Identify personal and general space to share space safely with other dancers. Categorize healthful strategies (e.g., nutrition, injury prevention, emotional health, overall functioning) essential for the dancer.
	Explore

Differentiation

- Understand that gifted students, just like all students, come to school to learn and be challenged.
- Pre-assess your students. Find out their areas of strength as well as those areas you may need to address before students move on.
- Consider grouping gifted students together for at least part of the school day.
- Plan for differentiation. Consider pre-assessments, extension activities, and compacting the curriculum.
- Use phrases like "You've shown you don't need more practice" or "You need more practice" instead of words like "qualify" or "eligible" when referring to extension work.
- Encourage high-ability students to take on challenges. Because they're often used to getting good grades, gifted students may be risk averse.
- **Definitions of Differentiation Components:**
 - Content – the specific information that is to be taught in the lesson/unit/course of instruction.
 - Process – how the student will acquire the content information.
 - Product – how the student will demonstrate understanding of the content.
 - Learning Environment – the environment where learning is taking place including physical location and/or student grouping

Differentiation occurring in this unit:

Students will be offered support and challenges as determined by teacher evaluation.

Modifications & Accommodations

Refer to QSAC EXCEL SMALL SPED ACCOMMODATIONS spreadsheet in this discipline.

Modifications and Accommodations used in this unit:

IEP's and 504 plans will be utilized.

Benchmark assessments

Benchmark Assessments are given periodically (e.g., at the end of every quarter or as frequently as once per month) throughout a school year to establish baseline achievement data and measure progress toward a standard or set of academic standards and goals.

Schoolwide Benchmark assessments:

Aimsweb benchmarks 3X a year

Linkit Benchmarks 3X a year

Additional Benchmarks used in this unit

Teacher made benchmark assessments to assess growth over time.

Formative Assessments

Assessment allows both instructor and student to monitor progress towards achieving learning objectives, and can be approached in a variety of ways. **Formative assessment** refers to tools that identify misconceptions, struggles, and learning gaps along the way and assess how to close those gaps. It includes effective tools for helping to shape learning, and can even bolster students' abilities to take ownership of their learning when they understand that the goal is to improve learning, not apply final marks (Trumbull and Lash, 2013). It can include students assessing themselves, peers, or even the instructor, through writing, quizzes, conversation, and more. In short, formative assessment occurs throughout a class or course, and seeks to improve student achievement of learning objectives through approaches that can support specific student needs (Theal and Franklin, 2010, p. 151).

Formative Assessments used in this unit:

Teacher observation

Performance assessment

Oral/Aural assessment

Games

Summative Assessments

Summative assessments evaluate student learning, knowledge, proficiency, or success at the conclusion of an instructional period, like a unit, course, or program. Summative assessments are almost always formally graded and often heavily weighted (though they do not need to be). Summative assessment can be used to great effect in conjunction and alignment with formative assessment, and instructors can consider a variety of ways to combine these approaches.

Summative assessments for this unit:

Teacher observation

Performance assessment

Oral/Aural assessment

Games

Instructional Materials

Grade 2 book

Supplemental song, game and activity materials

Chromatic bell set

Classroom pitched and non-pitched instruments

Hal Leonard Rhythm Flash Cards

Standards

MU.K-2.1.3A.2.Cr1	Generating and conceptualizing ideas.
MU.K-2.1.3A.2.Cr1a	Explore, create and improvise musical ideas using rhythmic and melodic patterns in various meters and tonalities.
MU.K-2.1.3A.2.Cr3b	Convey expressive intent for a specific purpose by presenting a final version of musical ideas to peers or informal audience.
MU.K-2.1.3A.2.Pr5b	Rehearse, identify and apply strategies to address interpretive, performance and technical challenges of music.
MU.K-2.1.3A.2.Re8a	Demonstrate basic knowledge of music concepts and how they support creators'/performers' expressive intent.
MU.K-2.1.3A.2.Re9a	Apply personal and expressive preferences in the evaluation of music.
MU.K-2.1.3A.2.Cn11a	Demonstrate understanding of relationships between music and the other arts, other disciplines, varied contexts, and daily life.
