Feb. Gr. 2 Music

Content Area: **Music**
Course(s):
Time Period: **February**
Length: **4-5 Weeks**
Status: **Published**

Unit Overview

Creating ★ Connecting ★ Performing ★ Responding

Students will identify and respond to different components of music that they have learned to recognize.

Enduring Understandings

Music is a series of rhythms, sounds, tones, styles and mood.

Essential Questions

How does everything we learned come together to create music?

Instructional Strategies & Learning Activities

Objectives	Suggested Activities	Evaluations	Res
Identify and respond to register, melodic contour, patterns and phrases	Recognizing and singing solfege syllables and demonstrating hand signs SOL, MI and LA & DO	Teacher observation	Grade 2
		Performance assessment	Boomv
Respond to a variety of musical styles and moods	Follow notated melodies		
		Oral/Aural assessment	Bells
	Folk dances		
Demonstrate rhythmic sensitivity			

to rhythm patterns		Games	*Holida*
Recognize repetition and contrast	Playing and creating patterns on instruments		
Recognize and respond to introduction, call and response, repeat, phrase, verse/refrain, solo and chorus	Singing, playing and creating songs showing repetition and contrast		Piano
			Hal Le *Cards*
Distinguish between single tomes and two or more tones sounded together	Visually representing patterns using pictures or letters		Interac
	Following the written lyrics in songs with more than one verse		

Integration of Career Readiness, Life Literacies and Key Skills

WRK.9.1.2.CAP	Career Awareness and Planning
WRK.9.1.2.CAP.1	Make a list of different types of jobs and describe the skills associated with each job.
TECH.9.4.2.CI.1	Demonstrate openness to new ideas and perspectives (e.g., 1.1.2.CR1a, 2.1.2.EH.1, 6.1.2.CivicsCM.2).
	Income is received from work in different ways including regular payments, tips, commissions, and benefits.
	Different types of jobs require different knowledge and skills.

Technology and Design Integration

Students will interact with the unit using the Smartboard.

CS.K-2.8.1.2.CS.1	Select and operate computing devices that perform a variety of tasks accurately and quickly based on user needs and preferences.

CS.K-2.8.1.2.CS.2	Explain the functions of common software and hardware components of computing systems.

Interdisciplinary Connections

DA.K-2.1.1.2.Cr1a	Demonstrate movement in response to a variety of sensory stimuli (e.g., music, imagery, objects) and suggest additional sources for movement ideas.
LA.RL.2.4	Describe how words and phrases (e.g., regular beats, alliteration, rhymes, repeated lines) supply rhythm and meaning in a story, poem, or song.
LA.RI.2.4	Determine the meaning of words and phrases in a text relevant to a grade 2 topic or subject area.
DA.K-2.1.1.2.Re7a	Demonstrate movements in a dance that develop patterns.
LA.SL.2.1	Participate in collaborative conversations with diverse partners about grade 2 topics and texts with peers and adults in small and larger groups.
LA.SL.2.2	Recount or describe key ideas or details from a text read aloud or information presented orally or through other media.

Differentiation

- Understand that gifted students, just like all students, come to school to learn and be challenged.
- Pre-assess your students. Find out their areas of strength as well as those areas you may need to address before students move on.
- Consider grouping gifted students together for at least part of the school day.
- Plan for differentiation. Consider pre-assessments, extension activities, and compacting the curriculum.
- Use phrases like "You've shown you don't need more practice" or "You need more practice" instead of words like "qualify" or "eligible" when referring to extension work.
- Encourage high-ability students to take on challenges. Because they're often used to getting good grades, gifted students may be risk averse.
- **Definitions of Differentiation Components**:
    - Content – the specific information that is to be taught in the lesson/unit/course of instruction.
    - Process – how the student will acquire the content information.
    - Product – how the student will demonstrate understanding of the content.
    - Learning Environment – the environment where learning is taking place including physical location and/or student grouping

Differentiation occurring in this unit

Students will be offered support and challenges as determined by teacher evaluation.

Modifications & Accommodations

Refer to QSAC EXCEL SMALL SPED ACCOMMOCATIONS spreadsheet in this discipline.

Modifications and Accommodations used in this unit:

IEP's and 504 plans will be utilized.

Benchmark Assessments

Benchmark Assessments are given periodically (e.g., at the end of every quarter or as frequently as once per month) throughout a school year to establish baseline achievement data and measure progress toward a standard or set of academic standards and goals.

Schoolwide Benchmark assessments:

Aimsweb benchmarks 3X a year

Linkit Benchmarks 3X a year

Additional Benchmarks used in this unit:

Teacher made benchmark assessments to assess growth over time.

Formative Assessments

Assessment allows both instructor and student to monitor progress towards achieving learning objectives, and can be approached in a variety of ways. **Formative assessment** refers to tools that identify misconceptions, struggles, and learning gaps along the way and assess how to close those gaps. It includes effective tools for helping to shape learning, and can even bolster students' abilities to take ownership of their learning when they understand that the goal is to improve learning, not apply final marks (Trumbull and Lash, 2013). It can include students assessing themselves, peers, or even the instructor, through writing, quizzes, conversation, and more. In short, formative assessment occurs throughout a class or course, and seeks to improve student achievement of learning objectives through approaches that can support specific student needs (Theal and Franklin, 2010, p. 151).

Formative Assessments used in this unit:

Teacher observation

Performance assessment

Oral/Aural assessment

Games

Summative Assessments

Summative assessments evaluate student learning, knowledge, proficiency, or success at the conclusion of an instructional period, like a unit, course, or program. Summative assessments are almost always formally graded and often heavily weighted (though they do not need to be). Summative assessment can be used to great effect in conjunction and alignment with formative assessment, and instructors can consider a variety of ways to combine these approaches.

Summative assessments for this unit:

Teacher observation

Performance assessment

Oral/Aural assessment

Games

Standards

MU.K-2.1.3A.2.Cr2a	Demonstrate and explain personal reasons for selecting patterns and ideas for music that represent expressive intent.
MU.K-2.1.3A.2Pr5a	Apply established criteria to judge the accuracy, expressiveness and effectiveness of performance.
MU.K-2.1.3A.2.Pr5d	When analyzing selected music, read and perform rhythmic and melodic patterns using iconic or standard notation.
MU.K-2.1.3A.2.Re7a	Demonstrate and explain how personal interests and experiences influence musical

	selection for specific purposes.
MU.K-2.1.3A.2.Cn11a	Demonstrate understanding of relationships between music and the other arts, other disciplines, varied contexts, and daily life.

Instructional Materials

Grade 2 book

Boomwhackers

Bells

Holidays and Special Days

Piano

Hal Leonard Rhythm Flash Cards

Interactive smartboard
