Oct. Gr. 3 Music:

Content Area: **Music**
Course(s):
Time Period: **October**
Length: **4-5 Weeks**
Status: **Published**

Unit Overview

Creating ★ Connecting ★ Performing ★ Responding

Students explore a continuation of previous knowledge concerning written and aural music.

Enduring Understandings

Music has rocognizable patterns and sounds that help students create, understand and respond.

Essential Questions

What am I hearing that I can use to understand and create music?

Instructional Strategies & Learning Activities

Objectives	Suggested Activities	Evaluations	Res
Demonstrate rhythmic sensitivity to beat, meter and duration Demonstrate melodic independence against an accompaniment	Respond to various meters and tempi with locomotor and non-locomotor movement Sing partner songs, canons and rounds	Teacher observation Peer Evaluation Performance assessment	Grade **Bool** **gam**

Recognize repetition and contrast (AB, ABA)	Practicing in-tune singing	Oral/Aural assessment	Piano
Recognize and respond to different elements of form	Use mnemonic devices for letter names of treble lines and spaces	Games	Classro pitched
Identify and develop qualities of good vocal tone	Recognizing the terms "staff", "G clef", "treble clef"		Hal Le Cards
Identify pitches by their letter names and location on the treble staff			Interac

Integration of Career Readiness, Life Literacies and Key Skills

WRK.9.2.5.CAP	Career Awareness and Planning
WRK.9.2.5.CAP.1	Evaluate personal likes and dislikes and identify careers that might be suited to personal likes.
WRK.9.2.5.CAP.2	Identify how you might like to earn an income.
WRK.9.2.5.CAP.3	Identify qualifications needed to pursue traditional and non-traditional careers and occupations.
WRK.9.2.5.CAP.4	Explain the reasons why some jobs and careers require specific training, skills, and certification (e.g., life guards, child care, medicine, education) and examples of these requirements.
TECH.9.4.5.CI	Creativity and Innovation
TECH.9.4.5.CT	Critical Thinking and Problem-solving
TECH.9.4.5.CT.4	Apply critical thinking and problem-solving strategies to different types of problems such as personal, academic, community and global (e.g., 6.1.5.CivicsCM.3).
TECH.9.4.5.DC.4	Model safe, legal, and ethical behavior when using online or offline technology (e.g., 8.1.5.NI.2).
	The ability to solve problems effectively begins with gathering data, seeking resources, and applying critical thinking skills.
	An individual's passions, aptitude and skills can affect his/her employment and earning potential.

Technology and Design Integration

Students will interact with the unit using the Smartboard.

CS.3-5.8.1.5.CS.2	Model how computer software and hardware work together as a system to accomplish tasks.
CS.3-5.8.1.5.CS.3	Identify potential solutions for simple hardware and software problems using common troubleshooting strategies.
	Shared features allow for common troubleshooting strategies that can be effective for many systems.

Interdisciplinary Connections

DA.3-5.1.1.5.Cr	Creating
DA.3-5.1.1.5.Cr1a	Use a variety of stimuli (e.g., music, sound, text, objects, images, notation, experiences, observed dance, literary forms, natural phenomena, current news) to build dance content.
DA.3-5.1.1.5.Cr1b	Solve multiple movement problems using the elements of dance to develop dance content.
DA.3-5.1.1.5.Pr4a	Perform planned and improvised movement sequences with increasing complexity in the use of space. Establish relationships with other dancers, increasing spatial awareness and design (e.g., diverse pathways, levels, patterns, focus, near/far).
DA.3-5.1.1.5.Re7a	Describe recurring patterns of movement and their relationships to the meaning of the dance.
DA.3-5.1.1.5.Re7b	Compare and contrast qualities and characteristics to another dance genre or culture. Use basic dance terminology and elements of dance to describe the qualities and characteristics.

Differentiation

- Understand that gifted students, just like all students, come to school to learn and be challenged.
- Pre-assess your students. Find out their areas of strength as well as those areas you may need to address before students move on.
- Consider grouping gifted students together for at least part of the school day.
- Plan for differentiation. Consider pre-assessments, extension activities, and compacting the curriculum.
- Use phrases like "You've shown you don't need more practice" or "You need more practice" instead of words like "qualify" or "eligible" when referring to extension work.
- Encourage high-ability students to take on challenges. Because they're often used to getting good grades, gifted students may be risk averse.
- **Definitions of Differentiation Components**:
    - o Content – the specific information that is to be taught in the lesson/unit/course of instruction.
    - o Process – how the student will acquire the content information.
    - o Product – how the student will demonstrate understanding of the content.
    - o Learning Environment – the environment where learning is taking place including physical location and/or student grouping
  Differentiation occurring in this unit:

Students will be offered support and challenges as determined by teacher evaluation.

Modifications & Accommodations

Refer to QSAC EXCEL SMALL SPED ACCOMMOCATIONS spreadsheet in this discipline.
Modifications and Accommodations used in this unit:

IEP's and 504 plans will be utilized.

Benchmark Assessments

:

Benchmark Assessments are given periodically (e.g., at the end of every quarter or as frequently as once per month) throughout a school year to establish baseline achievement data and measure progress toward a standard or set of academic standards and goals.
Schoolwide Benchmark assessments:
Aimsweb benchmarks 3X a year
Linkit Benchmarks 3X a year
Additional Benchmarks used in this unit:

Teacher made pre and post assessments to measure growth over time.

Formative Assessments

Assessment allows both instructor and student to monitor progress towards achieving learning objectives, and can be approached in a variety of ways. **Formative assessment** refers to tools that identify misconceptions, struggles, and learning gaps along the way and assess how to close those gaps. It includes effective tools for helping to shape learning, and can even bolster students' abilities to take ownership of their learning when they understand that the goal is to improve learning, not apply final marks (Trumbull and Lash, 2013). It can include students assessing themselves, peers, or even the instructor, through writing, quizzes, conversation, and more. In short, formative assessment occurs throughout a class or course, and seeks to improve student achievement of learning objectives through approaches that can support specific student needs (Theal and Franklin, 2010, p. 151).
Formative Assessments used in this unit:

eacher observation

Peer Evaluation

Performance assessment

Oral/Aural assessment

Games

Summative Assessments

Summative assessments evaluate student learning, knowledge, proficiency, or success at the conclusion of an instructional period, like a unit, course, or program. Summative assessments are almost always formally graded and often heavily weighted (though they do not need to be). Summative assessment can be used to great effect in conjunction and alignment with formative assessment, and instructors can consider a variety of ways to combine these approaches.
Summative assessments for this unit:

eacher observation

Peer Evaluation

Performance assessment

Oral/Aural assessment

Games

Instructional Materials

Grade 3 book

Book of circle games

Piano

Classroom pitched and non-pitched instruments

Hal Leonard Melody Flash Cards

Interactive smartboard

Standards

MU.3-5.1.3A.5.Cr1a	Generate and improvise rhythmic, melodic and harmonic ideas, and simple accompaniment patterns and chord changes. Explain connection to specific purpose and context (e.g., social, cultural, historical).
MU.3-5.1.3A.5.Pr5b	Rehearse to refine technical accuracy and expressive qualities to address challenges and show improvement over time.
MU.3-5.1.3A.5.Re7b	Demonstrate and explain, citing evidence, how responses to music are informed by the structure, the use of the elements of music, and context (i.e., social, cultural, historical).
MU.3-5.1.3A.5.Cn10a	Demonstrate how interests, knowledge, and skills related to personal choices and intent when creating, performing, and responding to music.
