

March Music Grade 5

Content Area:	Music
Course(s):	
Time Period:	March
Length:	4-5 Weeks
Status:	Published

Unit Overview

Creating ★ Connecting ★ Performing ★ Responding

Continue to explore music and build upon knowledge, skills and analysis of form gained in preceding grades.

Enduring Understandings

There are many different styles of music.

Music reflects different cultures.

Understanding the components that make up music allows us to appreciate and make music.

Essential Questions

How do we understand and create music?

Instructional Strategies & Learning Activities

Objectives	Suggested Activities	Evaluations	Resources
Express a variety of styles and moods of music through singing, playing, moving, creating and writing	Brainstorm ideas to complete an essay for Music in our schools month Suggested activities previous	Teacher observation Performance assessment	Grade 7 Music '...' “Music ...”

Understand the integrative concept that harmony works together with dynamics, harmony, rhythm, form and tone color to create music	grades to reinforce dynamic markings	Oral/Aural assessment	Music artist o
Recognizing and identifying vocal and instrumental sounds in relationship to their historical and cultural contexts	Listening to analyzing and discussing musical examples from various traditional and contemporary female artists	Games Written assessment	Classro pitched
	Listening to, analyzing and discussing musical examples using a variety of vocal and instrumental timbres including opera and spirituals	Self evaluation Peer evaluation	Piano

Integration of Career Readiness, Life Literacies and Key Skills

TECH.9.4.5.CI	Creativity and Innovation
TECH.9.4.5.CI.3	Participate in a brainstorming session with individuals with diverse perspectives to expand one's thinking about a topic of curiosity (e.g., 8.2.5.ED.2, 1.5.5.CR1a).
TECH.9.4.5.DC.1	Explain the need for and use of copyrights.
TECH.9.4.5.DC.2	Provide attribution according to intellectual property rights guidelines using public domain or creative commons media.
TECH.9.4.5.DC.4	Model safe, legal, and ethical behavior when using online or offline technology (e.g., 8.1.5.NI.2).
	Curiosity and a willingness to try new ideas (intellectual risk-taking) contributes to the

development of creativity and innovation skills.

Collaboration with individuals with diverse perspectives can result in new ways of thinking and/or innovative solutions.

Technology and Design Integration

CS.3-5.8.1.5.CS.3	Identify potential solutions for simple hardware and software problems using common troubleshooting strategies.
CS.3-5.8.2.5.ITH.1	Explain how societal needs and wants influence the development and function of a product and a system.

Interdisciplinary Connections

LA.RI.5.1	Quote accurately from a text and make relevant connections when explaining what the text says explicitly and when drawing inferences from the text.
LA.RI.5.2	Determine two or more main ideas of a text and explain how they are supported by key details; summarize the text.
LA.RI.5.3	Explain the relationships or interactions between two or more individuals, events, ideas, or concepts in a historical, scientific, or technical text based on specific information in the text.
LA.RI.5.4	Determine the meaning of general academic and domain-specific words and phrases in a text relevant to a grade 5 topic or subject area.
LA.RI.5.7	Draw on information from multiple print or digital sources, demonstrating the ability to locate an answer to a question quickly or to solve a problem efficiently.
LA.W.5.1	Write opinion pieces on topics or texts, supporting a point of view with reasons and information.

Differentiation

- Understand that gifted students, just like all students, come to school to learn and be challenged.
- Pre-assess your students. Find out their areas of strength as well as those areas you may need to address before students move on.
- Consider grouping gifted students together for at least part of the school day.
- Plan for differentiation. Consider pre-assessments, extension activities, and compacting the curriculum.
- Use phrases like "You've shown you don't need more practice" or "You need more practice" instead of words like "qualify" or "eligible" when referring to extension work.
- Encourage high-ability students to take on challenges. Because they're often used to getting good grades, gifted students may be risk averse.
- **Definitions of Differentiation Components:**
 - Content – the specific information that is to be taught in the lesson/unit/course of instruction.
 - Process – how the student will acquire the content information.
 - Product – how the student will demonstrate understanding of the content.
 - Learning Environment – the environment where learning is taking place including physical location and/or student grouping

Differentiation occurring in this unit:

Students will be offered support and challenges as determined by teacher evaluation.

Modifications & Accommodations

Refer to QSAC EXCEL SMALL SPED ACCOMMODATIONS spreadsheet in this discipline.

Modifications and Accommodations used in this unit:

IEP's and 504 plans will be utilized.

Benchmark Assessments

Benchmark Assessments are given periodically (e.g., at the end of every quarter or as frequently as once per month) throughout a school year to establish baseline achievement data and measure progress toward a standard or set of academic standards and goals.

Schoolwide Benchmark assessments:

Aimsweb benchmarks 3X a year

Linkit Benchmarks 3X a year

Additional Benchmarks used in this unit:

Teacher made pre and post assessments to measure g

rowth over time.

Formative Assessments

Assessment allows both instructor and student to monitor progress towards achieving learning objectives, and can be approached in a variety of ways. **Formative assessment** refers to tools that identify misconceptions, struggles, and learning gaps along the way and assess how to close those gaps. It includes effective tools for helping to shape learning, and can even bolster students' abilities to take ownership of their learning when they understand that the goal is to improve learning, not apply final marks (Trumbull and Lash, 2013). It can include students assessing themselves, peers, or even the instructor, through writing, quizzes, conversation, and more. In short, formative assessment occurs throughout a class or course, and seeks to improve student achievement of learning objectives through approaches that can support specific student needs (Theal and Franklin, 2010, p. 151).

Formative Assessments used in this unit:

Teacher observation

Performance assessment

Oral/Aural assessment

Games

Written assessment

Self evaluation

Peer evaluation

Summative Assessments

Summative assessments evaluate student learning, knowledge, proficiency, or success at the conclusion of an instructional period, like a unit, course, or program. Summative assessments are almost always formally graded and often heavily weighted (though they do not need to be). Summative assessment can be used to great effect in conjunction and alignment with formative assessment, and instructors can consider a variety of ways to combine these approaches.

Summative assessments for this unit:

Teacher observation

Performance assessment

Oral/Aural assessment

Games

Written assessment

Self evaluation

Peer evaluation

Instructional Materials

Grade 5 book Focus on Opera

Music Teachers Almanac essay “Music is Important to Me”

Music Alive article on female artist of the month

Classroom pitched and non-pitched instruments

Piano

Interactive smartboard

Standards

MU.3-5.1.3A.5.Cr1a	Generate and improvise rhythmic, melodic and harmonic ideas, and simple accompaniment patterns and chord changes. Explain connection to specific purpose and context (e.g., social, cultural, historical).
MU.3-5.1.3A.5.Cr3a	Evaluate, refine and document revisions to personal music, applying collaboratively developed criteria, showing improvement over time and explaining rationale for changes.
MU.3-5.1.3A.5.Pr4c	Analyze selected music by reading and performing using standard notation.
MU.3-5.1.3A.5.Pr4e	Convey creator's intents through the performers' interpretive decisions of expanded expressive qualities (e.g., dynamics, tempo, timbre, articulation/style).
MU.3-5.1.3A.5.Re7b	Demonstrate and explain, citing evidence, how responses to music are informed by the structure, the use of the elements of music, and context (i.e., social, cultural, historical).
MU.3-5.1.3A.5.Re9a	Demonstrate and explain how the expressive qualities (e.g., dynamics, tempo, timbre, articulation) are used in performers' and personal interpretations to reflect expressive intent.
MU.3-5.1.3A.5.Cn11a	Demonstrate understanding of relationships between music and the other arts, other disciplines, varied contexts, and daily life.
