

Nov. Gr. 1 Health Unit 3: Talk and Listen

Content Area: **Health**
Course(s):
Time Period: **November**
Length: **4-5 Weeks**
Status: **Published**

Unit Overview

Students will learn how we can communicate with others.

Enduring Understandings

Our ears and eyes are important in helping us to communicate with others.

Communicating with others helps us stay safe and get what we need.

Essential Questions

How can we communicate effectively with others?

Instructional Strategies & Learning Activities

List the different parts of the body that help us to talk and hear and show how each process works.

Discuss how to take care of our ears.

Define the word communication and its importance in the world.

List 5 ways people can communicate with each other.

Define trustworthy and why it is important.

Integration of Career Readiness, Life Literacies and Key Skills

WRK.9.1.2.CAP

Career Awareness and Planning

WRK.9.1.2.CAP.1

Make a list of different types of jobs and describe the skills associated with each job.

TECH.9.4.2.CI.1

Demonstrate openness to new ideas and perspectives (e.g., 1.1.2.CR1a, 2.1.2.EH.1,

TECH.9.4.2.CI.2	6.1.2.CivicsCM.2).
TECH.9.4.2.CT.3	Demonstrate originality and inventiveness in work (e.g., 1.3A.2CR1a). Use a variety of types of thinking to solve problems (e.g., inductive, deductive). Brainstorming can create new, innovative ideas. Critical thinkers must first identify a problem then develop a plan to address it to effectively solve the problem. Different types of jobs require different knowledge and skills. Individuals should practice safe behaviors when using the Internet.

Technology and Design Integration

Students will interact with the lesson through the Smartboard.

CS.K-2.8.1.2.CS.1	Select and operate computing devices that perform a variety of tasks accurately and quickly based on user needs and preferences. Individuals use computing devices to perform a variety of tasks accurately and quickly. Computing devices interpret and follow the instructions they are given literally.
-------------------	---

Interdisciplinary Connections

LA.RL.K.10	Actively engage in group reading activities with purpose and understanding.
LA.RI.K.1	With prompting and support, ask and answer questions about key details in a text.
LA.RI.K.7	With prompting and support, describe the relationship between illustrations and the text in which they appear (e.g., what person, place, thing, or idea in the text an illustration depicts).
LA.RI.K.10	Actively engage in group reading activities with purpose and understanding.
LA.W.K.2	Use a combination of drawing, dictating, and writing to compose informative/explanatory texts in which they name what they are writing about and supply some information about the topic.
LA.SL.K.1	Participate in collaborative conversations with diverse partners about kindergarten topics and texts with peers and adults in small and larger groups.
LA.SL.K.2	Confirm understanding of a text read aloud or information presented orally or through other media by asking and answering questions about key details and requesting clarification if something is not understood.

Differentiation

- Understand that gifted students, just like all students, come to school to learn and be challenged.
- Pre-assess your students. Find out their areas of strength as well as those areas you may need to address before students move on.
- Consider grouping gifted students together for at least part of the school day.
- Plan for differentiation. Consider pre-assessments, extension activities, and compacting the curriculum.
- Use phrases like "You've shown you don't need more practice" or "You need more practice" instead of words like "qualify" or "eligible" when referring to extension work.
- Encourage high-ability students to take on challenges. Because they're often used to getting good

grades, gifted students may be risk averse.

• **Definitions of Differentiation Components:**

- Content – the specific information that is to be taught in the lesson/unit/course of instruction.
- Process – how the student will acquire the content information.
- Product – how the student will demonstrate understanding of the content.
- Learning Environment – the environment where learning is taking place including physical location and/or student grouping

Differentiation occurring in this unit:

Students will be monitored for the need for challenge or support.

Modifications & Accommodations

Refer to QSAC EXCEL SMALL SPED ACCOMMODATIONS spreadsheet in this discipline.

Modifications and Accommodations used in this unit:

IEP and 504 accommodations will be utilized.

Formative Assessments

Assessment allows both instructor and student to monitor progress towards achieving learning objectives, and can be approached in a variety of ways. **Formative assessment** refers to tools that identify misconceptions, struggles, and learning gaps along the way and assess how to close those gaps. It includes effective tools for helping to shape learning, and can even bolster students' abilities to take ownership of their learning when they understand that the goal is to improve learning, not apply final marks (Trumbull and Lash, 2013). It can include students assessing themselves, peers, or even the instructor, through writing, quizzes, conversation, and more. In short, formative assessment occurs throughout a class or course, and seeks to improve student achievement of learning objectives through approaches that can support specific student needs (Theal and Franklin, 2010, p. 151).

Formative Assessments used in this unit:

Discussion

Teacher observation

Benchmark Assessments

Benchmark Assessments are given periodically (e.g., at the end of every quarter or as frequently as once per month) throughout a school year to establish baseline achievement data and measure progress toward a standard or set of academic standards and goals.

Schoolwide Benchmark assessments:

Aimswest benchmarks 3X a year

Linkit Benchmarks 3X a year

DRA

Additional Benchmarks used in this unit:

Teacher made benchmark assessments.

Summative Assessments

summative assessments evaluate student learning, knowledge, proficiency, or success at the conclusion of an instructional period, like a unit, course, or program. Summative assessments are almost always formally graded and often heavily weighted (though they do not need to be). Summative assessment can be used to great effect in conjunction and alignment with formative assessment, and instructors can consider a variety of ways to combine these approaches.

Summative assessments for this unit:

Worksheets

Instructional Materials

Resources from various in house program

<http://kidshealth.org/> is a resource for curriculum materials related to these health topics.

Standards

HE.K-2.2.1.2.EH.1	Explain the meaning of character and how it is reflected in the thoughts, feelings and actions of oneself and others.
HE.K-2.2.1.2.EH.2	Identify what it means to be responsible and list personal responsibilities.
HE.K-2.2.1.2.EH.3	Demonstrate self-control in a variety of settings (e.g., classrooms, playgrounds, special programs).
HE.K-2.2.1.2.EH.4	Demonstrate strategies for managing one's own emotions, thoughts and behaviors.
HE.K-2.2.1.2.EH.5	Explain healthy ways of coping with stressful situations.
HE.K-2.2.1.2.SSH.5	Identify basic social needs of all people.
HE.K-2.2.1.2.SSH.6	Determine the factors that contribute to healthy relationships.
HE.K-2.2.1.2.SSH.7	Explain healthy ways for friends to express feelings for and to one another.
HE.K-2.2.1.2.SSH.8	Demonstrate healthy ways to respond to disagreements or conflicts with others (e.g., leave, talk to trusted adults, tell a sibling or peer).
HE.K-2.2.1.2.SSH.9	Define bullying and teasing and explain why they are wrong and harmful.
HPE.2.1.2	All students will acquire health promotion concepts and skills to support a healthy, active lifestyle.
HPE.2.1.2.A.2	Use correct terminology to identify body parts, and explain how body parts work together to support wellness.
HPE.2.2.2.A.1	Express needs, wants, and feelings in health- and safety-related situations.
HPE.2.2.2.A.CS1	Effective communication may be a determining factor in the outcome of health- and safety-related situations.
