Eliminate Stations Consider reducing the number of stations—from seven to three or four—that students visit during the “tour” of ancient India. Have students choose the achievement in lesson 18 they want to learn about, and have them visit the corresponding station. You may wish to have students complete the Reading Notes for the remaining achievements by following the directions in the Interactive Student Notebook. Alternatively, consider reducing the number of palm-leaf pages about achievements from three to two.

Research the End of the Gupta Empire Have students work in pairs or small groups to learn about the end of the Gupta Empire. They should write or present a summary of the historical events, and explain what they think caused the empire to fall.
