Interdisciplinary Connections

CCSS.ELA-Literacy.RH.6-8.1	Cite specific textual evidence to support analysis of primary and secondary sources.
CCSS.ELA-Literacy.RH.6-8.2	Determine the central ideas or information of a primary or secondary source; provide an accurate summary of the source distinct from prior knowledge or opinions.
CCSS.ELA-Literacy.RH.6-8.3	Identify key steps in a text’s description of a process related to history/social studies (e.g., how a bill becomes law, how interest rates are raised or lowered).
CCSS.ELA-Literacy.RH.6-8.4	Determine the meaning of words and phrases as they are used in a text, including vocabulary specific to domains related to history/social studies.
CCSS.ELA-Literacy.RH.6-8.7	Integrate visual information (e.g., in charts, graphs, photographs, videos, or maps) with other information in print and digital texts.

CCSS.ELA-Literacy.RH.6-8.10	By the end of grade 8, read and comprehend history/social studies texts in the grades 6–8 text complexity band independently and proficiently.
CCSS.ELA-Literacy.SL.8.5	Integrate multimedia and visual displays into presentations to clarify information, strengthen claims and evidence, and add interest.
CCSS.ELA-Literacy.WHST.6-8.4	Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.
CCSS.ELA-Literacy.WHST.6-8.5	With some guidance and support from peers and adults, develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on how well purpose and audience have been addressed.
CCSS.ELA-Literacy.WHST.6-8.9	Draw evidence from informational texts to support analysis, reflection, and research.

Differentiation

- Understand that gifted students, just like all students, come to school to learn and be challenged.
- Pre-assess your students. Find out their areas of strength as well as those areas you may need to address before students move on.
- Consider grouping gifted students together for at least part of the school day.
- Plan for differentiation. Consider pre-assessments, extension activities, and compacting the curriculum.
- Use phrases like "You've shown you don't need more practice" or "You need more practice" instead of words like "qualify" or "eligible" when referring to extension work.
- Encourage high-ability students to take on challenges. Because they're often used to getting good grades, gifted students may be risk averse.
- **Definitions of Differentiation Components:**
 - Content – the specific information that is to be taught in the lesson/unit/course of instruction.
 - Process – how the student will acquire the content information.
 - Product – how the student will demonstrate understanding of the content.
 - Learning Environment – the environment where learning is taking place including physical location and/or student grouping

Differentiation occurring in this unit:

Advanced Learners

- **Use Only the Constitution** Have students use only the Constitution, not the Student Text or the Reading Notes, to answer the questions on the cards.

Write to a Local Official In place of the Processing activity, have students write a letter to a local official about an issue in their community. The letters should have an introduction, a paragraph with background information about the issue, at least one paragraph with a detailed proposal about what the local government should do about the issue, and a conclusion. Review and comment on students' letters. Then have students revise and send their letters.

Learners with Special Education Needs

- **Support the Activity** Give students the article number for each of the questions from the Constitutional Exam Cards. For some of the more challenging questions, consider giving them both the article and section numbers.

Heterogeneous groupings, guided note taking template, modified tests/quizzes, guided practice, individual conferencing, as needed, clarify directions, as needed, read assessments orally

Modifications & Accommodations

Refer to QSAC EXCEL SMALL SPED ACCOMMODATIONS spreadsheet in this discipline.

Modifications and Accommodations used in this unit:

Individual IEP's will be followed in addition to the differentiated instruction listed above.

- homework (Cornell Notes guided template)
- study guide for test and Constitutional Convention vocabulary
- modified tests/quizzes as needed per IEPs
- DBQ graphic organizers and guided instruction

Benchmark Assessments

Benchmark Assessments are given periodically (e.g., at the end of every quarter or as frequently as once per month) throughout a school year to establish baseline achievement data and measure progress toward a standard or set of academic standards and goals.

Schoolwide Benchmark assessments:

Aimsweb benchmarks 3X a year

Linkit Benchmarks 3X a year

Formative Assessments

Assessment allows both instructor and student to monitor progress towards achieving learning objectives, and can be approached in a variety of ways. **Formative assessment** refers to tools that identify misconceptions, struggles, and learning gaps along the way and assess how to close those gaps. It includes effective tools for helping to shape learning, and can even bolster students' abilities to take ownership of their learning when they understand that the goal is to improve learning, not apply final marks (Trumbull and Lash, 2013). It can include students assessing themselves, peers, or even the instructor, through writing, quizzes, conversation, and more. In short, formative assessment occurs throughout a class or course, and seeks to improve student achievement of learning objectives through approaches that can support specific student needs (Theal and Franklin, 2010, p. 151).

Formative Assessments used in this unit:

Homework

See activities listed above in daily lesson plans.

Summative Assessments

Summative assessments evaluate student learning, knowledge, proficiency, or success at the conclusion of an instructional period, like a unit, course, or program. Summative assessments are almost always formally graded and often heavily weighted (though they do not need to be). Summative assessment can be used to great effect in conjunction and alignment with formative assessment, and instructors can consider a variety of ways to combine these approaches.

Summative assessments for this unit:

Internet Project:

- You will e-mail a letter to one of your U.S. senators or to your House representative. In your letter, you will share what you have learned about the three branches of government, and ask a related question that you would like your senator or representative to answer.
- **Your e-mail must include**
 - a proper salutation (greeting).
 - an opening paragraph in which you 1) introduce yourself, 2) explain that you are studying the Constitution, and 3) share the most interesting or important thing you learned about the three branches of government. For example, you might tell how you learned that each branch has different ways to check the others' power.

- a paragraph in which you state your opinion about a specific aspect of the federal government. For example, you might say, "Even though the Constitution divides powers among the three branches, it still seems to me that the president has more power than Congress or the Supreme Court." Support your opinion with at least three pieces of evidence. For example, "One reason I think the president is more powerful is because everyone considers him the leader of the country."
- a brief paragraph in which you ask the senator or representative whether they agree or disagree with your opinion.
- a concluding paragraph in which you thank the senator or representative for reading your letter.
- proper closing, including your e-mail address, so that the senator or representative can respond.
- correct grammar and spelling. Send a copy of the e-mail to your teacher, or submit a printed copy.

Use the information below to find the e-mail address of your senator or representative.

Senate

Go to the U.S. Senate <http://www.senate.gov/>. Under "Senators," you can search by name or state to find the e-mail address of each of your senators.

House of Representatives

Go to the Write your Representative <http://www.house.gov/representatives/find/> section of the U.S. House <http://www.house.gov/> Web site. Select your state, enter your ZIP code, and click "submit." You can e-mail your representative using the form provided by the House or by visiting the representative's Web site.

You may want to examine your senators' or representative's Web site to learn more about them. You can also explore the Senate <http://www.senate.gov/> and House <http://www.house.gov/> Web sites, which have a great deal of information concerning the process of government and the current legislation being discussed in Congress.
