

March Gr.3 Spanish March, April, May, June

Content Area: **Spanish**
Course(s):
Time Period: **March**
Length: **10-12 Weeks**
Status: **Published**

Unit Overview

Introduction to Spanish. Videos, songs and games are used interactively in a Spanish program that incorporates basic vocabulary and grammar as well as cultural aspects of the language through the use of pictures, music, activities and games.

Enduring Understandings

Spanish is another language that people use to communicate.

Essential Questions

What is Spanish?

How can we speak words in Spanish?

Instructional Strategies & Learning Activities

Combine numbers with months in singing a song

Expressions for weather and feelings

Practice months

Recall weather expressions

Practice vocab for months

State your name

Review classroom vocabulary

Ask questions about age and month of birth

Compare ways to celebrate birthdays

Vocabulary for body parts and colors

Ask personal questions that elicit answers with expressions for feelings

Recall vocabulary for weather

Use color and days of the week vocabulary

Recall vocabulary for family

Give someone's age

Tell when a birthday occurs

Use expressions for feelings

Review: Greetings, introductions, classroom people and objects, Expression of feelings, Positive commands, colors, days of week, Parts of body, Animals and sounds, age related and birthday, Food related words, family members, weather expressions clothing, numbers 1-30 and Months. Demonstrate ability to use vocabulary for a number, color and part of the body.

Recall numbers 1-10, 10-20, 21-30

Integration of Career Readiness, Life Literacies and Key Skills

WRK.9.2.5.CAP.1	Evaluate personal likes and dislikes and identify careers that might be suited to personal likes.
WRK.9.2.5.CAP.2	Identify how you might like to earn an income.
WRK.9.2.5.CAP.3	Identify qualifications needed to pursue traditional and non-traditional careers and occupations.
TECH.9.4.5.CI	Creativity and Innovation
TECH.9.4.5.CT	Critical Thinking and Problem-solving
TECH.9.4.5.CT.4	Apply critical thinking and problem-solving strategies to different types of problems such as personal, academic, community and global (e.g., 6.1.5.CivicsCM.3).
TECH.9.4.5.GCA	Global and Cultural Awareness
TECH.9.4.5.GCA.1	Analyze how culture shapes individual and community perspectives and points of view (e.g., 1.1.5.C2a, RL.5.9, 6.1.5.HistoryCC.8).
TECH.9.4.5.IML.1	Evaluate digital sources for accuracy, perspective, credibility and relevance (e.g., Social Studies Practice - Gathering and Evaluating Sources).

Collaboration with individuals with diverse perspectives can result in new ways of thinking and/or innovative solutions.

Culture and geography can shape an individual's experiences and perspectives.

The ability to solve problems effectively begins with gathering data, seeking resources, and applying critical thinking skills.

An individual's passions, aptitude and skills can affect his/her employment and earning potential.

Technology and Design Integration

Smartboard

CS.3-5.8.2.5.EC.1	Analyze how technology has contributed to or reduced inequities in local and global communities and determine its short- and long-term effects.
CS.3-5.EC	Ethics & Culture Technological choices and opportunities vary due to factors such as differences in economic resources, location, and cultural values.

Interdisciplinary Connections

There is a direct correlation to English/ Language Arts when learning Spanish.

Differentiation

- Understand that gifted students, just like all students, come to school to learn and be challenged.
- Pre-assess your students. Find out their areas of strength as well as those areas you may need to address before students move on.
- Consider grouping gifted students together for at least part of the school day.
- Plan for differentiation. Consider pre-assessments, extension activities, and compacting the curriculum.
- Use phrases like "You've shown you don't need more practice" or "You need more practice" instead of words like "qualify" or "eligible" when referring to extension work.
- Encourage high-ability students to take on challenges. Because they're often used to getting good grades, gifted students may be risk averse.
- **Definitions of Differentiation Components:**
 - Content – the specific information that is to be taught in the lesson/unit/course of instruction.
 - Process – how the student will acquire the content information.
 - Product – how the student will demonstrate understanding of the content.
 - Learning Environment – the environment where learning is taking place including physical location and/or student grouping

Differentiation occurring in this unit:

Students will be monitored for the need for additional challenges, or support during the program lessons.

Modifications & Accommodations

Refer to QSAC EXCEL SMALL SPED ACCOMMODATIONS spreadsheet in this discipline.

Modifications and Accommodations used in this unit:

504 and IEP accommodations will be utilized.

Benchmark Assessments

Benchmark Assessments are given periodically (e.g., at the end of every quarter or as frequently as once per month) throughout a school year to establish baseline achievement data and measure progress toward a standard or set of academic standards and goals.

Schoolwide Benchmark assessments:

Aimsweb benchmarks 3X a year

Linkit Benchmarks 3X a year

DRA

Additional Benchmarks used in this unit:

Teachers will keep track of growth over time across the grades.

Formative Assessments

Assessment allows both instructor and student to monitor progress towards achieving learning objectives, and can be approached in a variety of ways. **Formative assessment** refers to tools that identify misconceptions, struggles, and learning gaps along the way and assess how to close those gaps. It includes effective tools for helping to shape learning, and can even bolster students' abilities to take ownership of their learning when they understand that the goal is to improve learning, not apply final marks (Trumbull and Lash, 2013). It can include students assessing themselves, peers, or even the instructor, through writing, quizzes, conversation,

and more. In short, formative assessment occurs throughout a class or course, and seeks to improve student achievement of learning objectives through approaches that can support specific student needs (Theal and Franklin, 2010, p. 151).

Formative Assessments used in this unit:

Teacher Observation

Discussion

Summative Assessments

summative assessments evaluate student learning, knowledge, proficiency, or success at the conclusion of an instructional period, like a unit, course, or program. Summative assessments are almost always formally graded and often heavily weighted (though they do not need to be). Summative assessment can be used to great effect in conjunction and alignment with formative assessment, and instructors can consider a variety of ways to combine these approaches.

Summative assessments for this unit:

Teacher Observation

Discussion

Worksheets

Instructional Materials

All lessons:

Music CD's and videos

Manipulatives and flashcards

Vocabulary words posted in classrooms

Standards

WL.NM.7.1.NM.IPERS.1	Request and provide information by asking and answering simple, practiced questions, using memorized words and phrases.
WL.NM.7.1.NM.IPERS.2	Share basic needs on very familiar topics using words, phrases, and short memorized, formulaic sentences practiced in class.
WL.NM.7.1.NM.IPERS.3	Express one's own and react to others' basic preferences and/or feelings using memorized, words, phrases, and simple memorized sentences that are supported by gestures and visuals.
WL.NM.7.1.NM.IPERS.4	Give and follow simple oral and written directions, commands, and requests when participating in classroom and cultural activities.
WL.NM.7.1.NM.IPERS.5	Imitate gestures and intonation of the target culture(s) native speakers when greeting others, during leave-takings, and in daily interactions.
WL.NM.7.1.NM.IPERS.6	Exchange brief messages with others about climate in the target regions of the world and in one's own region using memorized and practiced words, phrases, and simple, formulaic sentences.
WL.NM.7.1.NM.IPRET	Interpretive Mode of Communication
WL.NM.7.1.NM.IPRET.1	Identify familiar spoken and written words, phrases, and simple sentences contained in culturally authentic materials and other resources related to targeted themes.
WL.NM.7.1.NM.IPRET.2	Respond with actions and/or gestures to oral and written directions, commands, and requests that relate to familiar and practiced topics.
WL.NM.7.1.NM.IPRET.3	Identify familiar people, places, objects in daily life based on simple oral and written descriptions.
WL.NM.7.1.NM.IPRET.4	Report on the content of short messages that they hear, view, and read in predictable culturally authentic materials.
WL.NM.7.1.NM.IPRET.5	Demonstrate comprehension of brief oral and written messages found in short culturally authentic materials on global issues, including climate change.
WL.NM.7.1.NM.PRSNT.1	Present basic personal information, interests, and activities using memorized words, phrases, and a few simple sentences on targeted themes.
WL.NM.7.1.NM.PRSNT.2	State basic needs on very familiar topics using words, phrases, and short memorized, formulaic sentences practiced in class.
WL.NM.7.1.NM.PRSNT.3	Imitate, recite, and/or dramatize simple poetry, rhymes, songs, and skits.
WL.NM.7.1.NM.PRSNT.4	Copy/write words, phrases, or simple guided texts on familiar topics.
WL.NM.7.1.NM.PRSNT.5	Present information from age- and level-appropriate, culturally authentic materials orally or in writing.
WL.NM.7.1.NM.PRSNT.6	Name and label tangible cultural products associated with climate change in the target language regions of the world.
