

Feb. Gr. 6 Technology

Content Area: **Technology**
Course(s):
Time Period: **February**
Length: **4-5 Weeks**
Status: **Published**

Unit Overview

Students will explore coding with Scratch and work with Excel.

Enduring Understandings

Coding is the language we use write programming.

Essential Questions

How do we write code?

How do we use excel to create spreadsheets?

Instructional Strategies & Learning Activities

Objective: SCRATCH - Google Doodle " - Complete and Screen Shot Code(Day2)

The student will be able to create an animation of the word "Wildcat" using Scratch.

Differentiation:

All aspects of code build - sprite, backdrops, animations, etc.

Assessment:

Rubric

Objective: SCRATCH - W-I-L-D-C-A-T" - Write scripts and screen shot into Google doc

The student will be able to create an animation of the word "Wildcat" using Scratch.

Differentiation:

All aspects of code build - sprite, backdrops, animations, etc.

Assessment:

Rubric

Objective: "How Cold Is It?" ExcelWeather Project

The student will be able to research weather data, create and format a spreadsheet, and chart temperature trends.

Differentiation:

Students may choose to flip project to reflect 'high temps' and create chart types of their choice.

Assessment:

Rubric

Integration of Career Readiness, Life Literacies and Key Skills

| | |
|-----------------|---|
| WRK.9.2.8.CAP | Career Awareness and Planning |
| WRK.9.2.8.CAP.1 | Identify offerings such as high school and county career and technical school courses, apprenticeships, military programs, and dual enrollment courses that support career or occupational areas of interest. |
| WRK.9.2.8.CAP.3 | Explain how career choices, educational choices, skills, economic conditions, and personal behavior affect income. |
| WRK.9.2.8.CAP.4 | Explain how an individual's online behavior (e.g., social networking, photo exchanges, video postings) may impact opportunities for employment or advancement. |
| TECH.9.4.8.CI | Creativity and Innovation |
| TECH.9.4.8.CI.4 | Explore the role of creativity and innovation in career pathways and industries. |
| TECH.9.4.8.DC | Digital Citizenship |
| TECH.9.4.8.DC.4 | Explain how information shared digitally is public and can be searched, copied, and potentially seen by public audiences. |
| TECH.9.4.8.DC.5 | Manage digital identity and practice positive online behavior to avoid inappropriate forms of self-disclosure. |
| | Multiple solutions often exist to solve a problem. |

Technology and Design Integration

| | |
|-------------------|--|
| CS.6-8.8.1.8.AP.1 | Design and illustrate algorithms that solve complex problems using flowcharts and/or pseudocode. |
| CS.6-8.8.1.8.AP.2 | Create clearly named variables that represent different data types and perform operations on their values. |
| CS.6-8.8.1.8.AP.3 | Design and iteratively develop programs that combine control structures, including nested loops and compound conditionals. |
| CS.6-8.8.1.8.AP.4 | Decompose problems and sub-problems into parts to facilitate the design, implementation, and review of programs. |
| CS.6-8.8.1.8.AP.5 | Create procedures with parameters to organize code and make it easier to reuse. |
| CS.6-8.8.1.8.AP.6 | Refine a solution that meets users' needs by incorporating feedback from team members and users. |

| | |
|-------------------|---|
| CS.6-8.8.1.8.AP.7 | Design programs, incorporating existing code, media, and libraries, and give attribution. |
| CS.6-8.8.1.8.AP.8 | Systematically test and refine programs using a range of test cases and users. |
| CS.6-8.8.1.8.AP.9 | Document programs in order to make them easier to follow, test, and debug. |
| CS.6-8.AP | Algorithms & Programming |

Interdisciplinary Connections

| | |
|---------------|--|
| LA.RST.6-8 | Reading Science and Technical Subjects |
| LA.RST.6-8.1 | Cite specific textual evidence to support analysis of science and technical texts. |
| LA.RST.6-8.2 | Determine the central ideas or conclusions of a text; provide an accurate summary of the text distinct from prior knowledge or opinions. |
| LA.RST.6-8.3 | Follow precisely a multistep procedure when carrying out experiments, taking measurements, or performing technical tasks. |
| LA.RST.6-8.4 | Determine the meaning of symbols, key terms, and other domain-specific words and phrases as they are used in a specific scientific or technical context relevant to grades 6-8 texts and topics. |
| LA.RI.6.4 | Determine the meaning of words and phrases as they are used in a text, including figurative, connotative, and technical meanings. |
| LA.RST.6-8.5 | Analyze the structure an author uses to organize a text, including how the major sections contribute to the whole and to an understanding of the topic. |
| LA.RST.6-8.6 | Analyze the author's purpose in providing an explanation, describing a procedure, or discussing an experiment in a text. |
| LA.RI.6.7 | Integrate information presented in different media or formats (e.g., visually, quantitatively) as well as in words to develop a coherent understanding of a topic or issue. |
| LA.RST.6-8.7 | Integrate quantitative or technical information expressed in words in a text with a version of that information expressed visually (e.g., in a flowchart, diagram, model, graph, or table). |
| LA.RST.6-8.9 | Compare and contrast the information gained from experiments, simulations, video, or multimedia sources with that gained from reading a text on the same topic. |
| LA.RST.6-8.10 | By the end of grade 8, read and comprehend science/technical texts in the grades 6-8 text complexity band independently and proficiently. |
| LA.RI.6.10 | By the end of the year read and comprehend literary nonfiction at grade level text-complexity or above, with scaffolding as needed. |
| LA.WHST.6-8 | Writing History, Science and Technical Subjects |
| LA.WHST.6-8.1 | Write arguments focused on discipline-specific content. |
| LA.WHST.6-8.2 | Write informative/explanatory texts, including the narration of historical events, scientific procedures/experiments, or technical processes. |
| LA.W.6.2 | Write informative/explanatory texts to examine a topic and convey ideas, concepts, and information through the selection, organization, and analysis of relevant content. |
| LA.WHST.6-8.4 | Produce clear and coherent writing in which the development, organization, voice, and style are appropriate to task, purpose, and audience. |
| LA.WHST.6-8.5 | With some guidance and support from peers and adults, develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on how well purpose and audience have been addressed. |
| LA.WHST.6-8.6 | Use technology, including the Internet, to produce and publish writing and present the |

| | |
|---------------|---|
| | relationships between information and ideas clearly and efficiently. |
| LA.WHST.6-8.7 | Conduct short research projects to answer a question (including a self-generated question), drawing on several sources and generating additional related, focused questions that allow for multiple avenues of exploration. |
| LA.WHST.6-8.8 | Gather relevant information from multiple print and digital sources, using search terms effectively; assess the credibility and accuracy of each source; and quote or paraphrase the data and conclusions of others while avoiding plagiarism and following a standard format for citation. |
| LA.WHST.6-8.9 | Draw evidence from informational texts to support analysis, reflection, and research. |
| LA.W.6.6 | Use technology, including the Internet, to produce and publish writing as well as to interact and collaborate with others; demonstrate sufficient command of keyboarding skills to type a minimum of three pages in a single sitting. |
| LA.W.6.7 | Conduct short research projects to answer a question, drawing on several sources and refocusing the inquiry when appropriate. |
| LA.W.6.8 | Gather relevant information from multiple print and digital sources; assess the credibility of each source; and quote or paraphrase the data and conclusions of others while avoiding plagiarism and providing basic bibliographic information for sources. |
| LA.SL.6.1 | Engage effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grade 6 topics, texts, and issues, building on others' ideas and expressing their own clearly. |
| LA.SL.6.5 | Include multimedia components (e.g., graphics, images, music, sound) and visual displays in presentations to clarify information. |
| LA.L.6.1 | Demonstrate command of the conventions of standard English grammar and usage when writing or speaking. |
| LA.L.6.2 | Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling when writing. |
| LA.L.6.3 | Use knowledge of language and its conventions when writing, speaking, reading, or listening. |
| LA.L.6.4 | Determine or clarify the meaning of unknown and multiple-meaning words and phrases based on grade 6 reading and content, choosing flexibly from a range of strategies. |
| LA.L.6.6 | Acquire and use accurately grade-appropriate general academic and domain-specific words and phrases; gather vocabulary knowledge when considering a word or phrase important to comprehension or expression. |

Differentiation

- Understand that gifted students, just like all students, come to school to learn and be challenged.
- Pre-assess your students. Find out their areas of strength as well as those areas you may need to address before students move on.
- Consider grouping gifted students together for at least part of the school day.
- Plan for differentiation. Consider pre-assessments, extension activities, and compacting the curriculum.
- Use phrases like "You've shown you don't need more practice" or "You need more practice" instead of words like "qualify" or "eligible" when referring to extension work.
- Encourage high-ability students to take on challenges. Because they're often used to getting good grades, gifted students may be risk averse.

- **Definitions of Differentiation Components:**

- Content – the specific information that is to be taught in the lesson/unit/course of instruction.

- Process – how the student will acquire the content information.
- Product – how the student will demonstrate understanding of the content.
- Learning Environment – the environment where learning is taking place including physical location and/or student grouping

Differentiation occurring in this unit:

Differentiation will be offered as listed in the above activities.

Modifications & Accommodations

Refer to QSAC EXCEL SMALL SPED ACCOMMODATIONS spreadsheet in this discipline.

Modifications and Accommodations used in this unit:

IEP and 504 Accommodations will be utilized.

Benchmark Assessments

Benchmark Assessments are given periodically (e.g., at the end of every quarter or as frequently as once per month) throughout a school year to establish baseline achievement data and measure progress toward a standard or set of academic standards and goals.

Schoolwide Benchmark assessments:

Aimsweb benchmarks 3X a year

Linkit Benchmarks 3X a year

Additional Benchmarks used in this unit:

Teacher made assessments to measure growth.

Formative Assessments

Assessment allows both instructor and student to monitor progress towards achieving learning objectives, and can be approached in a variety of ways. **Formative assessment** refers to tools that identify misconceptions,

struggles, and learning gaps along the way and assess how to close those gaps. It includes effective tools for helping to shape learning, and can even bolster students' abilities to take ownership of their learning when they understand that the goal is to improve learning, not apply final marks (Trumbull and Lash, 2013). It can include students assessing themselves, peers, or even the instructor, through writing, quizzes, conversation, and more. In short, formative assessment occurs throughout a class or course, and seeks to improve student achievement of learning objectives through approaches that can support specific student needs (Theal and Franklin, 2010, p. 151).

Formative Assessments used in this unit:

Discussion

Teacher observation

projects

Summative Assessments

Summative assessments evaluate student learning, knowledge, proficiency, or success at the conclusion of an instructional period, like a unit, course, or program. Summative assessments are almost always formally graded and often heavily weighted (though they do not need to be). Summative assessment can be used to great effect in conjunction and alignment with formative assessment, and instructors can consider a variety of ways to combine these approaches.

Summative assessments for this unit:

Projects

Assessments listed above

Instructional Materials

Materials as needed for projects

Standards

See Standards above.
