

Gr. 8 ELA Unit 6: Person of the Year

Content Area:	English
Course(s):	Language Arts
Time Period:	May
Length:	4 weeks
Status:	Published

Unit overview

The purpose of this unit is twofold: the first half of the unit will focus on enhancing students' ability to read and understand complex nonfiction texts, while the second half of the unit challenges students to create their own Person of the Year (POTY) writing piece. Students will read several published POTY examples. We will use these examples to discuss necessary nonfiction reading skills such as identifying central idea, considering the structure of a nonfiction text, identifying bias, and evaluating the strength of an author's argument. Students' understanding of these concepts will be assessed using a quiz. Once students have been exposed to a variety of exemplars, students will be asked to identify their own influential person. They will then write an organized piece that blends informational and argumentative writing skills.

Enduring Understandings

Readers of dense nonfiction texts can use the structure and text features to help make meaning.

Readers should consider whose viewpoint is included in a text, whose is omitted, and why.

The ability to identify bias and to evaluate the strength of an argument is an essential skill to be a well-informed consumer of information.

Essential Questions

What are some of the differences between fiction and nonfiction texts?

How do readers approach these types of texts differently?

What strategies can readers use to make sense of complex informational texts?

What are the different ways that an author can organize information?

How do readers evaluate the strength of a writer's argument?

Instructional Strategies and Learning Activities

<p>Day 1: What is Time's Person of the Year? Students will complete a webquest to help them learn about this type of informational writing.</p>	<p>Day 2: Text Features and Text Structures Students will be able to identify common text features and text structures. Students will be able to use these to help build their understanding of a text.</p>	<p>Day 3: Identifying Central Idea Students will be able to define central idea and identify the central idea in a whole text/section of a text. Students will be able to identify supporting details.</p>	<p>Day 4: Central Idea continued Students will read the Time Magazine 2023 Person of the Year piece. They will identify the central idea and supporting details of various sections of this text.</p>	<p>Day 5: Author's Purpose and Perspective Students will be able to identify a nonfiction writer's purpose in a text. Students will be able to define perspective and consider how bias plays a role in nonfiction writing. Students will read an opinion article which disagrees with Time's POTY decision.</p>
<p>Day 6: Notice and Note, Nonfiction Signposts Students will be able to identify and analyze the following: word gaps, contrasts and contradictions, absolute or extreme language, numbers and statistics, and quoted words. Students will read another POTY exemplar and practice identifying these signposts.</p>	<p>Day 7: Evaluating the Strength of an Argument Students will be able to evaluate the strength of a nonfiction writer's argument by considering the fairness, evidence, logic, and tone used in the piece. Students will practice this skill with an opinion piece posted on Google Classroom.</p>	<p>Day 8: Person of the Year Centers, Day 1 Students will move in small groups to the following centers. They will visit two centers today and two tomorrow.</p> <p>Center 1: Critical Reading Directions: Read the TIME Person of the Year profiles for Martin Luther King Jr. and Elon Musk. Then answer the corresponding questions.</p>	<p>Day 9: Person of the Year Centers, Day 2 Students will continue the previous day's activity, visiting the remaining two stations.</p>	<p>Day 10: Brainstorming for POTY Students will consider influential people in their lives and will complete a series of quick writes about these individuals (family members, friends, coaches, mentors, celebrities, politicians, etc.). Students will select their Person of the Year.</p>

	<p>Center 2: Compare and Contrast</p> <p>Directions: Read the TIME Person of the Year profiles for The Ebola Fighters and Joseph Stalin. Complete the Venn Diagram (hard copy handout) to compare and contrast these choices.</p>

Differentiation

- Understand that gifted students, just like all students, come to school to learn and be challenged.
- Pre-assess your students. Find out their areas of strength as well as those areas you may need to address before students move on.
- Consider grouping gifted students together for at least part of the school day.
- Plan for differentiation. Consider pre-assessments, extension activities, and compacting the curriculum.
- Use phrases like "You've shown you don't need more practice" or "You need more practice" instead of words like "qualify" or "eligible" when referring to extension work.
- Encourage high-ability students to take on challenges. Because they're often used to getting good grades, gifted students may be risk averse.

- **Definitions of Differentiation Components:**

- Content – the specific information that is to be taught in the lesson/unit/course of instruction.
- Process – how the student will acquire the content information.
- Product – how the student will demonstrate understanding of the content.
- Learning Environment – the environment where learning is taking place including physical location and/or student grouping

Differentiation occurring in this unit: Additional support and/or additional challenges will be available to students in need of modifications. Small group and individual conferences will be used.

Modifications and Accommodations

Refer to QSAC EXCEL SMALL SPED ACCOMMODATIONS spreadsheet in this discipline.

Modifications and Accommodations will be applied according to IEPs and 504 plans.

Benchmark Assessments

Benchmark Assessments are given periodically (e.g., at the end of every quarter or as frequently as once per month) throughout a school year to establish baseline achievement data and measure progress toward a standard or set of academic standards and goals.

Schoolwide Benchmark assessments:

Aimsweb benchmarks 3X a year

Linkit Benchmarks 3X a year

Formative Assessments

Assessment allows both instructor and student to monitor progress towards achieving learning objectives, and can be approached in a variety of ways. **Formative assessment** refers to tools that identify misconceptions, struggles, and learning gaps along the way and assess how to close those gaps. It includes effective tools for helping to shape learning, and can even bolster students' abilities to take ownership of their learning when they understand that the goal is to improve learning, not apply final marks (Trumbull and Lash, 2013). It can include students assessing themselves, peers, or even the instructor, through writing, quizzes, conversation, and more. In short, formative assessment occurs throughout a class or course, and seeks to improve student achievement of learning objectives through approaches that can support specific student needs (Theal and Franklin, 2010, p. 151).

Formative Assessments used in this unit: small group discussions, whole class discussions, writing conferences, reading conferences, readers' notebooks, daily writing work on Google Classroom, daily homework

Summative Assessments

Summative assessments evaluate student learning, knowledge, proficiency, or success at the conclusion of an instructional period, like a unit, course, or program. Summative assessments are almost always formally graded and often heavily weighted (though they do not need to be). Summative assessment can be used to great effect in conjunction and alignment with formative assessment, and instructors can consider a variety of ways to combine these approaches.

Summative assessments for this unit: Wordly Wise test; grammar quiz; nonfiction reading quiz; nonfiction reading test; final writing publication (*Person of the Year* piece)
