

# March April Library Gr. 3

Content Area: **Library**  
Course(s):  
Time Period: **March**  
Length: **6-8 Weeks**  
Status: **Published**

## Unit Overview

---

Students will participate in a variety of activities based on shared books.

## Enduring Understandings

---

There are many things you can do to connect with books.

## Essential Questions

---

How do I make connections with books that are read to me or I choose?

## Instructional Strategies & Learning Activities

---

author visit - Kathleen DeMario  
book - What kid of dog am I?  
activity - craft  
video - rescued dogs

Reflection on past events in the library in the last month (Caldecott Medal and author visit)  
read two books from March Book Madness and compare

book - Margaret and the moon  
activity - finish Penny Timeline from November

book - Cinder-Elly  
activity - March Madness  
design and build basketball hoop and practice making baskets  
supplies - markers, paper plate, cup and ping pong balls

book - 11 experiments that failed  
read and discuss  
review how to use a dictionary  
activity - dictionary relay race

Fairy Tale Unit in third grade  
Folk tales  
book - clever Rachel  
activity - solve riddles and tell riddle

Folk tales  
book -  
activity - Spring Bingo

National Poetry Month  
Shel Silverstein  
excerpts from *Where the Sidewalk Ends* and *A Light in the Attic*  
book - *Runny Babbit*  
Spoonerism activity

## **Integration of Career Readiness, Life Literacies and Key Skills**

---

Students will meet with a real author to learn about her career.

WRK.9.1.2.CAP	Career Awareness and Planning
WRK.9.1.2.CAP.1	Make a list of different types of jobs and describe the skills associated with each job.
TECH.9.4.5.CI	Creativity and Innovation
TECH.9.4.5.CI.3	Participate in a brainstorming session with individuals with diverse perspectives to expand one's thinking about a topic of curiosity (e.g., 8.2.5.ED.2, 1.5.5.CR1a).
TECH.9.4.5.CT	Critical Thinking and Problem-solving
TECH.9.4.5.CT.1	Identify and gather relevant data that will aid in the problem-solving process (e.g., 2.1.5.EH.4, 4-ESS3-1, 6.3.5.CivicsPD.2).
TECH.9.4.5.CT.4	Apply critical thinking and problem-solving strategies to different types of problems such as personal, academic, community and global (e.g., 6.1.5.CivicsCM.3).
TECH.9.4.5.DC.4	Model safe, legal, and ethical behavior when using online or offline technology (e.g., 8.1.5.NI.2).
TECH.9.4.5.GCA	Global and Cultural Awareness
TECH.9.4.5.GCA.1	Analyze how culture shapes individual and community perspectives and points of view

(e.g., 1.1.5.C2a, RL.5.9, 6.1.5.HistoryCC.8).

TECH.9.4.5.IML.1

Evaluate digital sources for accuracy, perspective, credibility and relevance (e.g., Social Studies Practice - Gathering and Evaluating Sources).

Different types of jobs require different knowledge and skills.

Curiosity and a willingness to try new ideas (intellectual risk-taking) contributes to the development of creativity and innovation skills.

Culture and geography can shape an individual's experiences and perspectives.

## Technology and Design Integration

---

Students will interact with the lesson using the Smartboard and library computers.

CS.3-5.8.2.5.ED.2

Collaborate with peers to collect information, brainstorm to solve a problem, and evaluate all possible solutions to provide the best results with supporting sketches or models.

CS.3-5.8.2.5.ED.3

Follow step by step directions to assemble a product or solve a problem, using appropriate tools to accomplish the task.

CS.3-5.8.2.5.ED.5

Describe how specifications and limitations impact the engineering design process.

CS.3-5.8.2.5.ED.6

Evaluate and test alternative solutions to a problem using the constraints and trade-offs identified in the design process.

CS.3-5.ED

Engineering Design

## Interdisciplinary Connections

---

Many of the library book choices from both the teacher and self chosen make interdisciplinary connections.

## Differentiation

---

- Understand that gifted students, just like all students, come to school to learn and be challenged.
- Pre-assess your students. Find out their areas of strength as well as those areas you may need to address before students move on.
- Consider grouping gifted students together for at least part of the school day.
- Plan for differentiation. Consider pre-assessments, extension activities, and compacting the curriculum.
- Use phrases like "You've shown you don't need more practice" or "You need more practice" instead of words like "qualify" or "eligible" when referring to extension work.
- Encourage high-ability students to take on challenges. Because they're often used to getting good grades, gifted students may be risk averse.
- **Definitions of Differentiation Components:**
  - Content – the specific information that is to be taught in the lesson/unit/course of instruction.
  - Process – how the student will acquire the content information.
  - Product – how the student will demonstrate understanding of the content.
  - Learning Environment – the environment where learning is taking place including physical location and/or student grouping

**Differentiation occurring in this unit:**

Challenges and support will be offered as needed.

## **Modifications & Accommodations**

---

Refer to QSAC EXCEL SMALL SPED ACCOMMODATIONS spreadsheet in this discipline.

### **Modifications and Accommodations used in this unit:**

IEP and 504 accommodations will be utilized.

## **Benchmark Assessments**

---

**Benchmark Assessments** are given periodically (e.g., at the end of every quarter or as frequently as once per month) throughout a school year to establish baseline achievement data and measure progress toward a standard or set of academic standards and goals.

### **Schoolwide Benchmark assessments:**

Aimsweb benchmarks 3X a year

Linkit Benchmarks 3X a year

### **Additional Benchmarks used in this unit:**

Teacher made assessments on the acquisition of library skills.

## **Formative Assessments**

---

Assessment allows both instructor and student to monitor progress towards achieving learning objectives, and can be approached in a variety of ways. **Formative assessment** refers to tools that identify misconceptions, struggles, and learning gaps along the way and assess how to close those gaps. It includes effective tools for helping to shape learning, and can even bolster students' abilities to take ownership of their learning when they understand that the goal is to improve learning, not apply final marks (Trumbull and Lash, 2013). It can include students assessing themselves, peers, or even the instructor, through writing, quizzes, conversation, and more. In short, formative assessment occurs throughout a class or course, and seeks to improve student achievement of learning objectives through approaches that can support specific student needs (Theal and Franklin, 2010, p. 151).

### **Formative Assessments used in this unit:**

discussion

teacher observation

worksheets

## Summative Assessments

---

**Summative assessments** evaluate student learning, knowledge, proficiency, or success at the conclusion of an instructional period, like a unit, course, or program. Summative assessments are almost always formally graded and often heavily weighted (though they do not need to be). Summative assessment can be used to great effect in conjunction and alignment with formative assessment, and instructors can consider a variety of ways to combine these approaches.

**Summative assessments for this unit:**

Final projects

## Instructional Materials

---

Library books

MakerSpace materials

## Standards

---

LA.RL.3.1	Ask and answer questions, and make relevant connections to demonstrate understanding of a text, referring explicitly to the text as the basis for the answers.
LA.RL.3.2	Recount stories, including fables, folktales, and myths from diverse cultures; determine the central message/theme, lesson, or moral and explain how it is revealed through key details in the text.
LA.RL.3.3	Describe the characters in a story (e.g., their traits, motivations, or feelings) and explain how their actions contribute to the plot.
LA.RI.3.7	Use information gained from text features (e.g., illustrations, maps, photographs) and the words in a text to demonstrate understanding of the text (e.g., where, when, why, and how key events occur).
LA.SL.3.1	Engage effectively in a range of collaborative discussions (one-on-one, in groups, and teacher led) with diverse partners on grade 3 topics and texts, building on others' ideas and expressing their own clearly.

LA.SL.3.2

Determine the main ideas and supporting details of a text read aloud or information presented in diverse media and formats, including visually, quantitatively, and orally.

LA.SL.3.3

Ask and answer questions about information from a speaker, offering appropriate elaboration and detail.
