Integration of Career Readiness, Life Literacies and Key Skills

- Students work in small groups to create oral presentations
- Students work in small groups to create dialogues in the target language
- Students discuss cultural norms within Hispanic countries and compare and contrast with those of their own
- Students use critical thinking to analyze their ability to learn in the TL and make suggestions on how instruction can be revamped

PFL.9.1.8.CP.1	Compare prices for the same goods or services.
PFL.9.1.8.FP.4	Analyze how familial and cultural values influence savings rates, spending, and other financial decisions.
WRK.9.2.8.CAP.3	Explain how career choices, educational choices, skills, economic conditions, and personal behavior affect income.
WRK.9.2.8.CAP.10	Evaluate how careers have evolved regionally, nationally, and globally.
TECH.9.4.8.GCA.1	Model how to navigate cultural differences with sensitivity and respect (e.g., 1.5.8.C1a).
TECH.9.4.8.GCA.2	Demonstrate openness to diverse ideas and perspectives through active discussions to achieve a group goal. Awareness of and appreciation for cultural differences is critical to avoid barriers to productive and positive interaction.

Technology and Design Integration

- Students will interact with the lessons on the Smartboard and utilize their devices to create evidence of

learning.

-Students will use google products like classroom, drive, email, docs, and slides to review, compose, organize, and present information.

-Students will use Schoology.com to review text resources and complete their homework.

-Students will use Quizziz.com for assesments.

-Students will use Classdojo.com to track participation progress.

CS.6-8.8.2.8.EC.1	Explain ethical issues that may arise from the use of new technologies.
CS.6-8.8.2.8.EC.2	Examine the effects of ethical and unethical practices in product design and development.
CS.6-8.8.2.8.ITH.1	Explain how the development and use of technology influences economic, political, social, and cultural issues.
CS.6-8.8.2.8.ITH.2	Compare how technologies have influenced society over time.
CS.6-8.EC	Ethics & Culture
CS.6-8.ITH	Interaction of Technology and Humans
	Technological disparities have consequences for public health and prosperity.
	Technology interacts with society, sometimes bringing about changes in a society's economy, politics, and culture, and often leading to the creation of new needs and wants. New needs and wants may create strains on local economies and workforces.
	Improvements in technology are intended to make the completion of tasks easier, safer, and/or more efficient.
	Economic, political, social and cultural aspects of society drive development of new technological products, processes, and systems.

Differentiation

- Understand that gifted students, just like all students, come to school to learn and be challenged.
- Pre-assess your students. Find out their areas of strength as well as those areas you may need to address before students move on.
- Consider grouping gifted students together for at least part of the school day.
- Plan for differentiation. Consider pre-assessments, extension activities, and compacting the curriculum.
- Use phrases like "You've shown you don't need more practice" or "You need more practice" instead of

words like "qualify" or "eligible" when referring to extension work.

- Encourage high-ability students to take on challenges. Because they're often used to getting good grades, gifted students may be risk averse.

- **Definitions of Differentiation Components:**

- Content – the specific information that is to be taught in the lesson/unit/course of instruction.
- Process – how the student will acquire the content information.
- Product – how the student will demonstrate understanding of the content.
- Learning Environment – the environment where learning is taking place including physical location and/or student grouping

Differentiation occurring in this unit:

Students will be supported with additional learning materials and strategies based on their skills and learning needs.

Modifications & Accommodations

Refer to QSAC EXCEL SMALL SPED ACCOMMODATIONS spreadsheet in this discipline.

Modifications and Accommodations used in this unit:

All IEP and 504 accommodations will be utilized.

Benchmark Assessments

Benchmark Assessments are given periodically (e.g., at the end of every quarter or as frequently as once per month) throughout a school year to establish baseline achievement data and measure progress toward a standard or set of academic standards and goals.

Schoolwide Benchmark assessments:

Aimsweb benchmarks 3X a year

Linkit Benchmarks 3X a year

DRA

Additional Benchmarks used in this unit:

Pre-test and end of year assessments.

Formative Assessments

Assessment allows both instructor and student to monitor progress towards achieving learning objectives, and can be approached in a variety of ways. **Formative assessment** refers to tools that identify misconceptions, struggles, and learning gaps along the way and assess how to close those gaps. It includes effective tools for helping to shape learning, and can even bolster students' abilities to take ownership of their learning when they understand that the goal is to improve learning, not apply final marks (Trumbull and Lash, 2013). It can include students assessing themselves, peers, or even the instructor, through writing, quizzes, conversation, and more. In short, formative assessment occurs throughout a class or course, and seeks to improve student achievement of learning objectives through approaches that can support specific student needs (Theal and Franklin, 2010, p. 151).

Formative Assessments used in this unit:

Evaluation criteria

- Express luck, admiration, and quantity.
- Describe the elements of the universe.
- Ask for a reason using *por qué*.
- Express cause or reason using the conjunction *porque* followed by a sentence.
- Express cause or reason using the preposition *por*.
- Describe the geography of a place and its political divisions.
- Express quantity using indefinite adjectives.
- Express past actions using irregular verbs *decir*, *hacer*, *estar* and *tener*.
- Describe items in nature and the environment.
- Asking for permission, giving permission, and denying permission using *poder*.
- Describe Chile's customs, geographical aspects, and historical facts.

Summative Assessments

Summative assessments evaluate student learning, knowledge, proficiency, or success at the conclusion of an instructional period, like a unit, course, or program. Summative assessments are almost always formally graded and often heavily weighted (though they do not need to be). Summative assessment can be used to great effect in conjunction and alignment with formative assessment, and instructors can consider a variety of ways to combine these approaches.

Summative assessments for this unit:

- Class Participation
- Quizzes
- Chapter tests
- Projects
