### Integration of Career Readiness, Life Literacies and Key Skills

- Students work in small groups to create oral presentations
- Students work in small groups to create dialogues in the target language
- Students discuss cultural norms within Hispanic countries and compare and contrast with those of their own
- Students use critical thinking to analyze their ability to learn in the TL and make suggestions on how instruction can be revamped

|                  |  |
|------------------|--|
| PFL.9.1.8.FP.4   | Analyze how familial and cultural values influence savings rates, spending, and other financial decisions.   |
| WRK.9.2.8.CAP.3  | Explain how career choices, educational choices, skills, economic conditions, and personal behavior affect income.   |
| WRK.9.2.8.CAP.10 | Evaluate how careers have evolved regionally, nationally, and globally.  |
| TECH.9.4.8.CI.1  | Assess data gathered on varying perspectives on causes of climate change (e.g., cross-cultural, gender-specific, generational), and determine how the data can best be used to design multiple potential solutions (e.g., RI.7.9, 6.SP.B.5, 7.1.NH.IPERS.6, 8.2.8.ETW.4).  |
| TECH.9.4.8.DC.2  | Provide appropriate citation and attribution elements when creating media products (e.g., W.6.8).  |
| TECH.9.4.8.GCA   | Global and Cultural Awareness  |
| TECH.9.4.8.GCA.1 | Model how to navigate cultural differences with sensitivity and respect (e.g., 1.5.8.C1a).   |
| TECH.9.4.8.GCA.2 | Demonstrate openness to diverse ideas and perspectives through active discussions to achieve a group goal.<br><br>Awareness of and appreciation for cultural differences is critical to avoid barriers to productive and positive interaction.<br><br>Increases in the quantity of information available through electronic means have heightened the need to check sources for possible distortion, exaggeration, or misrepresentation. |

## Technology and Design Integration

---

- Students will interact with the lessons on the Smartboard and utilize their devices to create evidence of learning.
- Students will use google products like classroom, drive, email, docs, and slides to review, compose, organize, and present information.
- Students will use Schoology.com to review text resources and complete their homework.
- Students will use Quizziz.com for assessments.
- Students will use Classdojo.com to track participation progress.

|                    |  |
|--------------------|--|
| CS.6-8.8.2.8.EC.1  | Explain ethical issues that may arise from the use of new technologies.  |
| CS.6-8.8.2.8.EC.2  | Examine the effects of ethical and unethical practices in product design and development.  |
| CS.6-8.8.2.8.ITH.1 | Explain how the development and use of technology influences economic, political, social, and cultural issues.   |
| CS.6-8.8.2.8.ITH.2 | Compare how technologies have influenced society over time.  |
| CS.6-8.EC          | Ethics & Culture   |
| CS.6-8.ETW         | Effects of Technology on the Natural World   |
| CS.6-8.ITH         | Interaction of Technology and Humans   |
|                    | Economic, political, social and cultural aspects of society drive development of new technological products, processes, and systems.   |
|                    | Technology interacts with society, sometimes bringing about changes in a society's economy, politics, and culture, and often leading to the creation of new needs and wants. New needs and wants may create strains on local economies and workforces. Improvements in technology are intended to make the completion of tasks easier, safer, and/or more efficient. |
|                    | Technological disparities have consequences for public health and prosperity.  |
|                    | Resources need to be utilized wisely to have positive effects on the environment and society. Some technological decisions involve trade-offs between environmental and economic needs, while others have positive effects for both the economy and environment.   |

## **Differentiation**

---

- Understand that gifted students, just like all students, come to school to learn and be challenged.
- Pre-assess your students. Find out their areas of strength as well as those areas you may need to address before students move on.
- Consider grouping gifted students together for at least part of the school day.
- Plan for differentiation. Consider pre-assessments, extension activities, and compacting the curriculum.
- Use phrases like "You've shown you don't need more practice" or "You need more practice" instead of words like "qualify" or "eligible" when referring to extension work.
- Encourage high-ability students to take on challenges. Because they're often used to getting good grades, gifted students may be risk averse.
- **Definitions of Differentiation Components:**
  - Content – the specific information that is to be taught in the lesson/unit/course of instruction.
  - Process – how the student will acquire the content information.
  - Product – how the student will demonstrate understanding of the content.
  - Learning Environment – the environment where learning is taking place including physical location and/or student grouping

### **Differentiation occurring in this unit:**

Students will be supported with additional learning materials and strategies based on their skills and learning needs.

## **Modifications & Accommodations**

---

Refer to QSAC EXCEL SMALL SPED ACCOMMODATIONS spreadsheet in this discipline.

### **Modifications and Accommodations used in this unit:**

All IEP and 504 accommodations will be utilized.

## **Benchmark Assessments**

---

**Benchmark Assessments** are given periodically (e.g., at the end of every quarter or as frequently as once per month) throughout a school year to establish baseline achievement data and measure progress toward a standard or set of academic standards and goals.

### **Schoolwide Benchmark assessments:**

Aimsweb benchmarks 3X a year

Linkit Benchmarks 3X a year

DRA

### **Additional Benchmarks used in this unit:**

Pre-test and end of year assessments.

## **Formative Assessments**

---

Assessment allows both instructor and student to monitor progress towards achieving learning objectives, and can be approached in a variety of ways. **Formative assessment** refers to tools that identify misconceptions, struggles, and learning gaps along the way and assess how to close those gaps. It includes effective tools for helping to shape learning, and can even bolster students' abilities to take ownership of their learning when they understand that the goal is to improve learning, not apply final marks (Trumbull and Lash, 2013). It can include students assessing themselves, peers, or even the instructor, through writing, quizzes, conversation, and more. In short, formative assessment occurs throughout a class or course, and seeks to improve student achievement of learning objectives through approaches that can support specific student needs (Theal and Franklin, 2010, p. 151).

### **Formative Assessments used in this unit:**

### **Evaluation criteria**

- Identify body parts.
- Describe surroundings using the five senses.
- Identify daily hygiene products.
- Describe and compare good daily hygiene habits.
- Identify medical professions and their workplaces.
- Express what hurts.
- Identify and describe the symptoms of an illness.
- Express emotions.
- Give and follow commands.
- Identify basic remedies for common illnesses.

- Choose healthy lifestyle habits and illness prevention.

## Summative Assessments

---

**Summative assessments** evaluate student learning, knowledge, proficiency, or success at the conclusion of an instructional period, like a unit, course, or program. Summative assessments are almost always formally graded and often heavily weighted (though they do not need to be). Summative assessment can be used to great effect in conjunction and alignment with formative assessment, and instructors can consider a variety of ways to combine these approaches.

**Summative assessments for this unit:**

-Class Participation

-Quizzes

-Chapter tests

-Projects

## Instructional Materials
