Unit Overview

Creating ★ Connecting ★ Performing ★ Responding

A. Knowledge and skills that increase aesthetic awareness in music.

1.1.8.B.CS2

B. Perceptual, physical and technical skills 1.3.8.B.2 ; 1.4.8.A.CS3; 1.3.8.B.CS3

Enduring Understandings

Music is made up of complex rhythms and sounds.

Playing music requires dedication and practice.

Essential Questions

What techniques and skills must a musician acquire to enhance their musical abilities?

Instructional Strategies & Learning Activities

A. Describe the sound of their instrument. What is easy or difficult about playing the student's specific instrument.

- Record materials and practice time in a journal (lesson book).
- Posture, no talking, being on time.
- Being prepared- instrument, music
- Paying attention, no gum chewing

B. Rhythms-identify

- up and down beat
- Whole note/whole rest

- Half note/half rest
- Quarter note/quarter rest
- Dotted half note
- Eighth notes/rests

- Key signature

C. Demonstrate perceptual awareness of conductor's signals by utilizing:

- Tempo
- Loud/soft
- Entrances and cut-offs
- Meter
- Fermata
- Tempo changes

Demonstrate improvisation skills

Integration of Career Readiness, Life Literacies and Key Skills

CRP.K-12.CRP2	Apply appropriate academic and technical skills.
CRP.K-12.CRP4	Communicate clearly and effectively and with reason.
CRP.K-12.CRP6	Demonstrate creativity and innovation.
CRP.K-12.CRP10	Plan education and career paths aligned to personal goals.
CRP.K-12.CRP12	Work productively in teams while using cultural global competence.

Technology and Design Integration

There is no technology integration in performance band.

Interdisciplinary Connections

Music connects to all disciplines.

Differentiation

- Understand that gifted students, just like all students, come to school to learn and be challenged.
- Pre-assess your students. Find out their areas of strength as well as those areas you may need to address before students move on.
- Consider grouping gifted students together for at least part of the school day.
- Plan for differentiation. Consider pre-assessments, extension activities, and compacting the curriculum.
- Use phrases like "You've shown you don't need more practice" or "You need more practice" instead of words like "qualify" or "eligible" when referring to extension work.
- Encourage high-ability students to take on challenges. Because they're often used to getting good grades, gifted students may be risk averse.
- **Definitions of Differentiation Components:**
 - Content – the specific information that is to be taught in the lesson/unit/course of instruction.
 - Process – how the student will acquire the content information.
 - Product – how the student will demonstrate understanding of the content.
 - Learning Environment – the environment where learning is taking place including physical location and/or student grouping

Differentiation occurring in this unit:

Students skills drive instructional levels.

Benchmark Assessments

Benchmark Assessments are given periodically (e.g., at the end of every quarter or as frequently as once per month) throughout a school year to establish baseline achievement data and measure progress toward a standard or set of academic standards and goals.

Schoolwide Benchmark assessments:

Aimsweb benchmarks 3X a year

Linkit Benchmarks 3X a year

Additional Benchmarks used in this unit:

. Summative assessment can be used to great effect in conjunction and alignment with formative assessment, and instructors can consider a variety of ways to combine these approaches.

Formative Assessments

Assessment allows both instructor and student to monitor progress towards achieving learning objectives, and can be approached in a variety of ways. **Formative assessment** refers to tools that identify misconceptions, struggles, and learning gaps along the way and assess how to close those gaps. It includes effective tools for helping to shape learning, and can even bolster students' abilities to take ownership of their learning when they understand that the goal is to improve learning, not apply final marks (Trumbull and Lash, 2013). It can include students assessing themselves, peers, or even the instructor, through writing, quizzes, conversation, and more. In short, formative assessment occurs throughout a class or course, and seeks to improve student achievement of learning objectives through approaches that can support specific student needs (Theal and Franklin, 2010, p. 151).

Formative Assessments used in this unit:

A. Students will develop an understanding of the instruments of the band through answering questions about their experiences. Students will communicate verbal responses to questions.

B. Students will recognize rewards of achievement through regular practice.

- Say note names, play scale on instrument.
- Continue performing regular exercises that include all mentioned skills.
- Identify terms and symbols.
- Continue performing regular exercises.

Summative Assessments

Summative assessments evaluate student learning, knowledge, proficiency, or success at the conclusion of an instructional period, like a unit, course, or program. Summative assessments are almost always formally graded and often heavily weighted (though they do not need to be). Summative assessment can be used to great effect in conjunction and alignment with formative assessment, and instructors can consider a variety of ways to combine these approaches.
