8.1.5.DA.1: Collect, organize, and display data in order to highlight relationships or support a claim.

### Activity:

Discuss state government and go through the process of how bills become laws. Use materials from the NJ State House. Also, visit the NJ State Legislature website and read some bills that are in committee. Discuss some possible ideas they would have for bills in our town or state. Brainstorm a list and then have students decide which bill they'd like to write up to propose to the class. Have students type their bills in Google Classroom. Once bills are written, the kids in the class will act as the State Senate and the General Assembly to try and pass the bills.
