

First Grade- Strategy Assessment 2.2.2 PF4

A **strategy** is a plan that helps a team achieve a goal. During the Game of Clean Your Room, we work as a team. Our goal is to have the cleanest room. As I read the sentences below, raise your hand if you think the sentence is a strategy that would help your team have the cleanest room.

Have a student who raises their hand explain the strategy.

Teacher explains why sentences 1,2, and 5 are not strategies

1. Each player picks up as many balls as he/she can.
2. Each player aiming at the players on the other team trying to hit them.
3. Players throwing the balls as far as they can.
4. Players walking around looking for a ball.
5. Teammates fighting over the balls.
