

Unit 1b-Soccer

Content Area: **P.E. & Health**
Course(s): **Phys. Ed. 4**
Time Period: **Marking Period 1**
Length: **MP1**
Status: **Published**

Essential Questions

- What part of your foot do you strike a soccer ball with?
- Why is agility and speed necessary in soccer?

Big Ideas

- Competent and confident age appropriate performances of gross, fine motor and manipulative skills, with execution of movement skills and concepts individually and in groups enhance (intensifies) physical activities. Free movement, games, aerobics, dance, sports, and recreational activities
- Constructive feedback from others impacts improvement, effectiveness and participation in movement skills, concepts, sportsmanship, and safety.
- The components of fitness contribute to enhanced personal health as well as motor skill performance (e.g., speed, agility, endurance, strength, balance).
- Wellness is maintained, and gains occur over time (dimensions and components of health) when participating and setting goals in a variety of moderate to vigorous age appropriate physical activities.
- Personal and community resources can support physical activity.

CSDT Technology Connection

8.1.5.IC.1: Identify computing technologies that have impacted how individuals live and work and describe the factors that influenced the changes

Enduring Understandings

Motor Skill & Concepts
