

Instructional Lesson Plan

Content Area(s)/Course/Grade: Math Grade 6

Unit: Numbers

Lesson Topic:
Converting Currency

Approx. Date/s:
October/ November

Diversity Integration Topic:
The different currency in different countries

NJSL Standard/s:
• **6.NS.B.3: Fluently add, subtract, multiply, and divide multi-digit decimals using the standard algorithm for each operation.**

Textbook, Materials, Resources:
Worksheets of different currency exchange rates.

Lesson Objective:

Students will be able to convert US currency to other countries and compare the cost of living in each country

Instructional Delivery

Culturally Responsive Teaching strategy:
Making Learning contextual: Connecting to real world situations

Procedures:

- Teacher will go over how there are many different currencies through the world and when traveling you need to convert US dollars to the currency of the country you are visiting.
- Teacher will model how to change currency from US dollars to different country and vice versa
- Students will work with a partner to complete converting one country's currency worksheets.
- Students will compare the cost of living in the one country they choose to the US

Assessment/Evaluation

Formative/Summative:
Teacher will grade turned in worksheets and comparison

Closure:

Students will have a class discussion on what they learned from the counties they visited.
