Content Area: **21st Century Life & Careers**
Course(s): **Generic Course**
Time Period: **Generic Time Period**
Length: **Weeks**
Status: **Published**

Unit Introduction

When photography was first invented, the poor quality of the image lead to many photographers editing their images. The earliest known edits date back to the 1860s of a photograph of Abraham Lincoln's head and John C. Calhoun's body. Photo editing has become a widely accepted part of photo creation to create the perfect picture. Photo editing includes "in camera" changes, as well as using computer software to edit.

Standards

9.3.12.AR-VIS.2	Analyze how the application of visual arts elements and principles of design communicate and express ideas.
TECH.8.1.12.A.CS2	Select and use applications effectively and productively.
