Section 2: TV Studio Production

Content Area: 21st Century Life & Careers

Course(s): TV Media II
Time Period: Semester 1
Length: 8 weeks
Status: Published

Unit Introduction

In this section we will discuss TV Studio Production. Students will have the opportunity to work with professional grade television production equipment in a fully functioning television studio. The ability to create video based projects will allow students to enter the world of visual media as it stands highly prevalent in society today. This creativity will hopefully spark an interest in video journalism, comedy, public service, school initiatives, community activities, and much more. In addition, the mastery of skills used in this class will be broken down into four units and can be used in other cross-curricula initiatives and/or projects.

Standards

| 9.3.12.AR.2 Analyze the importance of health, safety and environmental management systems, policies and procedures common in arts, audio/video technology and communications activities and facilities. 9.3.12.AR.5 Describe the career opportunities and means to achieve those opportunities in each of the Arts, A/V Technology & Communications Career Pathways. 9.3.12.AR.6 Evaluate technological advancements and tools that are essential to occupations within the Arts, A/V Technology & Communications Career Cluster. 9.3.12.AR-AV.2 Demonstrate the use of basic tools and equipment used in audio, video and film production. 9.3.12.AR-AV.3 Demonstrate technical support skills for audio, video and/or film productions. 9.3.12.AR-AV.4 Design an audio, video and/or film production. 9.3.12.AR-JB.3 Plan and deliver a media production (e.g., broadcast, video, Internet and mobile). 9.3.12.AR-JB.4 Demonstrate technical support related to media production (e.g., broadcast, video, Internet, mobile). | | |
