

# Unit 07: A1 - Ch. 6 - Systems of Equations and Inequalities

Content Area: **Math**  
Course(s): **Algebra1 CP, Algebra 1A, Algebra 1H**  
Time Period: **Marking Period 2**  
Length: **13 Days**  
Status: **Published**

## Unit Introduction

---

## Standards

---

MA.A-REI.C.6	Solve systems of linear equations exactly and approximately (e.g., with graphs), focusing on pairs of linear equations in two variables.
MA.A-REI.D.12	Graph the solutions to a linear inequality in two variables as a half plane (excluding the boundary in the case of a strict inequality), and graph the solution set to a system of linear inequalities in two variables as the intersection of the corresponding half-planes.

## Essential Questions

---

- Can a system of equations model real-world situations?
- How can you solve a system of equations or inequalities?

## Content

---

- 6-1 Solving Systems by Graphing (1 Day)
- 6-2 Solving Systems by Substitution (2 Days)
- 6-3 Solving Systems by Elimination (2 Days)
- 6-4 Application of Linear Systems (3 Days)
- 6-5 Linear Inequalities (1 Day)
- 6-6 Systems of Linear Inequalities (1 Day)

## Skills

---

- Application problems using systems of equations
- Solve system of Inequalities
- Solving a linear system by elimination
- Solving a linear system by graphing
- Solving linear system by substitution

- Use graphing calculators and technology where appropriate
- Use relevant vocabulary, notations, and symbols when appropriate
