STUDENT LEARNING TARGETS

Declarative Knowledge

Students will understand that:

- Temperature and climate conditions affect the intonation of their instrument.
- An in tune instrument is only the first step in playing with proper intonation.
- Intonation relates to the distance between individual notes as well as the combination of like and unlike pitches.

Procedural Knowledge

Students will be able to:

- Analyze their own intonation by using a tuner.
- Identify that they are out of tune by aurally listening to their pitch against other instruments and identifying pulses.
- Measure their intonation by using a tuner and/or aurally and making the changes necessary to their instrument.
- Predict the intonation of their instrument through prolonged performance and the climate of the room and make the changes necessary to avoid intonation issues during a rehearsal or performance.
