01_Intro to Computer Arts

Content Area: Course(s):

Art

Time Period: Semester
Length: 1 Week
Status: Published

General Overview, Course Description or Course Philosophy

The computer arts course is designed to offer students the skills and understanding to navigate and create artwork in the leading industry-standard vector graphics software programs. Students will create everything from web and mobile graphics to logos, icons, book illustrations, product packaging, and billboards. They will turn shapes and colors into logos and icons. Create typography, draw freehand, and trace and recolor graphics. They will work predominantly in Adobe Illustrator which is vector-based, so their artwork stays crisp even when scaled up to stadium size. Students will have assembled a digital portfolio showcasing their skills by the end of the course.

OBJECTIVES, ESSENTIAL QUESTIONS, ENDURING UNDERSTANDINGS

Objective: Introduce students to the leading, industry-standard, vector graphics software programs.

Essential Questions: How do media artists generate ideas and formulate artistic intent? How does collaboration expand and affect the creative process? How can creative risks be encouraged?

Enduring Understanding: Media arts use a variety of sources such as imagination and creative processes to inspire and transform concepts and ideas into artistic expression.

CONTENT AREA STANDARDS

MA.9-12.1.2.12prof.Cr1 Generating and conceptualizing ideas.

MA.9-12.1.2.12prof.Cr1a Formulate multiple ideas using generative methods to develop artistic goals and solve

problems in media arts creation processes.

MA.9-12.1.2.12prof.Cr1b Organize and design artistic ideas for media arts productions.

RELATED STANDARDS (Technology, 21st Century Life & Careers, ELA Companion Standards are Required)

WRK.9.2.12.CAP.4 Evaluate different careers and develop various plans (e.g., costs of public, private, training

schools) and timetables for achieving them, including educational/training requirements,

costs, loans, and debt repayment.

TECH.9.4.12.CI.1 Demonstrate the ability to reflect, analyze, and use creative skills and ideas (e.g.,

1.1.12prof.CR3a).

STUDENT LEARNING TARGETS

Declarative Knowledge

Students will understand that:

- Media artists can generate ideas and formulate artistic intent through computer art programs.
- Digital art collaboration can expand and affect the creative process positively.
- Creative exploration and risk taking is welcomed and encouraged.

Procedural Knowledge

Students will be able to:

• Use a variety of sources such as imagination and creative processes to inspire and transform concepts and ideas into artistic expression.

EVIDENCE OF LEARNING

Alternate Assessments

- Teacher/Student Conferences
- Portfolios
- Modified Rubrics

Formative Assessments
Teacher Observation
Teacher Feedback and Discussions
Student Journal
Practical Exercises
Independent Investigation Activities
Summative Assessments
Teacher Rubrics
Final Projects
Reflection Worksheet
Self Evaluation
Critiques
RESOURCES (Instructional, Supplemental, Intervention Materials)
Adobe Illustrator
Adobe Fresco
Google Drawing
Procreate

INTERDISCIPLINARY CONNECTIONS

Students understanding of computer arts will help them better grasp the impact of societal changes bot	h
socially and economically.
