

03_Transform and Edit Artwork

Content Area: **Art**
Course(s):
Time Period: **Semester**
Length: **2 Weeks**
Status: **Published**

General Overview, Course Description or Course Philosophy

The computer arts course is designed to offer students the skills and understanding to navigate and create artwork in the leading industry-standard vector graphics software programs. Students will create everything from web and mobile graphics to logos, icons, book illustrations, product packaging, and billboards. They will turn shapes and colors into logos and icons. Create typography, draw freehand, and trace and recolor graphics. They will work predominantly in Adobe Illustrator which is vector-based, so their artwork stays crisp even when scaled up to stadium size. Students will have assembled a digital portfolio showcasing their skills by the end of the course.

OBJECTIVES, ESSENTIAL QUESTIONS, ENDURING UNDERSTANDINGS

Objective: Learn the basics of transforming and editing artwork, including resizing artwork, using groups, aligning objects, and more.

Essential Questions: How are complex media arts experiences constructed? At what point is a work considered "complete"?

Enduring Understandings: Media artists integrate various media and content to develop complex, unified artworks through a process of creation and communication.
