General Overview, Course Description or Course Philosophy

Latin 1

Latin 1 is an introductory course in what is arguably the most influential language in the history of Western Civilization. Students study the fundamentals of the language, while learning its unique relationship with English. Focusing on the basics of Latin grammar, students develop the skills necessary to comprehend Latin texts of increasing difficulty. The course also examines the influence of Roman culture on our own world by examining the institutions, traditions, and history of the Greeks and the Romans. In general, Latin serves as an excellent preparation for the verbal and written assessments of the PSAT, SAT, and ACT.

OBJECTIVES, ESSENTIAL QUESTIONS, ENDURING UNDERSTANDINGS

Objectives:

Students will demonstrate comprehension of:

- how Latin is a “dead” language that continues to live.
- how Latin, unlike English, does not convey meaning through word order, but through word endings.

Essential Questions

How can a language continue to live after it is no longer spoken in a specific area?

How can words show their relationship to other words through their morphology?

Enduring Understanding

A language can continue to "live," even though it is no longer commonly spoken.

The syntax of an individual word can be expressed by the form of a word and not its placement in

a phrase, clause, or sentence.
