General Overview, Course Description or Course Philosophy

After a brief review of previously acquired skills and knowledge acquired in French 2CP or Honors, this course aims to further develop students' listening, speaking, reading and writing skills in the target language. New grammar and vocabulary are introduced and reinforced in oral and written exercises. Listening and speaking activities are included in classroom situations, conversations, original presentations, and the use of authentic recorded materials. The French language is used extensively throughout the course with a higher level of immersion in the Honors level.

The goal of this class is not only to improve students' communications skills in the French language but also to instill in students respect and understanding of other cultures as well as an interest in exploring their world. Students are introduced to French songs, movies and short literature selections throughout the year. Students learn and research Francophone cultures through reading and digital resources.

A good work ethic, daily study habits, willingness to learn and a positive attitude are key to students' success.

OBJECTIVES, ESSENTIAL QUESTIONS, ENDURING UNDERSTANDINGS

- People have to work to make a living
- Education has a direct impact of the work people perform.
