Content Area: **Music**
Course(s):
Time Period: **Full Year**
Length: **On-Going**
Status: **Published**

General Overview, Course Description or Course Philosophy

This course provides a solid foundation in Choir fundamentals, which are introduced, reviewed and mastered, from grade level 6 through level 8. Its design is to impart students with a multifaceted music education, through skill building, historical and social contexts, and performance. Students will engage in daily collaborative whole group and small group singing, to enhance vocal technique, while building community and equity through diversity. Musical growth and mastery will be demonstrative at two choir concerts, one marking their mid-year progress, the second culminating in their end of year proficiency.

OBJECTIVES, ESSENTIAL QUESTIONS, ENDURING UNDERSTANDINGS

The vocal warm-up is an essential component to **CVT** (Correct Vocal Technique) and **GVT** (Group Vocal Technique). It is critical for singers to apply the skills of a properly executed vocal warm-up to the choral repertoire they are rehearsing, as one always informs the other. Technique and skill building in vocal exercises will enhance and improve the learning of a piece of choral music.
