

06 Industrial Revolution

Content Area: **Special Education**
Course(s):
Time Period: **Full Year**
Length: **10 days**
Status: **Published**

General Overview, Course Description or Course Philosophy

The New Jersey Core Curriculum Content Standards for Social Studies education provides learners with the knowledge, skills, and perspectives needed to become active, informed citizens and contributing members of local, state, national, and global communities in the digital age. An education in social studies fosters a population that is civic minded, globally aware, and socially responsible, exemplifies fundamental values of American citizenship through active participation in local and global communities, makes informed decisions about local, state, and global events based on inquiry and analysis, considers multiple perspectives, values diversity, and promotes cultural understanding, recognizes the implications of an interconnected global economy, appreciates the global dynamics between people, places, and resources and utilizes emerging technologies to communicate and collaborate on career and personal matters with citizens of the other world regions. In the self contained setting students will be exposed to all the essential material.

OBJECTIVES, ESSENTIAL QUESTIONS, ENDURING UNDERSTANDINGS

Students will understand:

- the Industrial Revolution was a consequence of technological innovation and expanding economic activity and markets, resulting in massive population movement, urbanization, and the development of complex economic systems.
- industrialized nations embarked on a competitive race for global resources and markets, resulting in the establishment of political and economic control over large regions of the world that had a lasting impact.

CONTENT AREA STANDARDS

SOC.6.2.12.CivicsPI.3.a	Analyze the relationship between industrialization and the rise of democratic and social reforms, including the expansion of parliamentary government.
SOC.6.2.12.EconGE.3.a	Analyze the interrelationships between the "agricultural revolution," population growth, industrialization, specialization of labor, and patterns of landholding in 19th century Britain.
SOC.6.2.12.HistoryCC.3.b	Explain how industrialization and urbanization affected class structure, family life, the daily lives of men, women, and children, and the environment.

RELATED STANDARDS (Technology, 21st Century Life & Careers, ELA Companion Standards are Required)

9.4.2.IML.1: Identify a simple search term to find information in a search engine or digital resource.

9.4.12.IML.2: Evaluate digital sources for timeliness, accuracy, perspective, credibility of the source, and relevance of information, in media, data, or other resources (e.g., NJSLSA.W8, Social Studies Practice: Gathering and Evaluating Sources).
