

Unit 4 - Texture

Content Area: **Template**
Course(s):
Time Period: **Full Year**
Length: **Full Year**
Status: **Published**

Unit Overview

In this unit, students will learn about the texture found in artwork. For example, what does it mean for something to be bumpy and look bumpy?

Enduring Understandings

Texture describes how something can physically feel. Artists can convey texture in a variety of ways.

Essential Questions

- What textures do you recognize? (Smooth Bumpy, rough, etc)
- What thing, objects, or materials might be smooth, bumpy, or rough?
- How do you create a texture in artwork that is rough, bumpy, or smooth?
- What different materials/techniques can be used to create texture?

Learning Objectives

- Identify and describe textures that students can feel.
- Identify and explain visual versus textures found in nature and in the work of artists.
- Demonstrate visual or tactile texture in their art.

Creating

Creativity and innovative thinking are essential life skills that can be developed. Artists and designers shape artistic investigations, following or breaking with traditions in pursuit of creative art-making goals.

What conditions, attitudes, and behaviors support creativity and innovative thinking? What factors prevent or encourage people to take creative risks? How does collaboration expand the creative process? How does knowing the contexts, histories, and traditions of art forms help us create works of art and design? Why do artists follow or break from established traditions? How do artists determine what resources and criteria are needed

to formulate artistic investigations?

Artists and designers experiment with forms, structures, materials, concepts, media, and art-making approaches. Artists and designers balance experimentation and safety, freedom and responsibility, while developing and creating artworks. People create and interact with objects, places and design that define, shape, enhance, and empower their lives.

How do artists work? How do artists and designers determine whether a particular direction in their work is effective? How do artists and designers learn from trial and error? How do artists and designers care for and maintain materials, tools and equipment? Why is it important, for safety and health, to understand and follow correct procedures in handling materials, tools and equipment? What responsibilities come with the freedom to create? How do objects, places and design shape lives and communities? How do artists and designers determine goals for designing or redesigning objects, places, or systems? How do artists and designers create works of art or design that effectively communicate?

VA.K-2.1.5.2.Cr2a

Through experimentation, build skills and knowledge of materials and tools through various approaches to art making.

VA.K-2.1.5.2.Cr2b

Demonstrate safe procedures for using and cleaning art tools, equipment and studio spaces.

VA.K-2.1.5.2.Cr2c

Create art that represents natural and constructed environments. Identify and classify uses of everyday objects through drawings, diagrams, sculptures or other visual means including repurposing objects to make something new.

Artists and designers develop excellence through practice and constructive critique, reflecting on, revising and refining work over time.

What role does persistence play in revising, refining and developing work? How do artists grow and become accomplished in art forms? How does collaboratively reflecting on a work help us experience it more completely?

Artists and other presenters consider various techniques, methods, venues, and criteria when analyzing, selecting and curating objects artifacts, and artworks for preservation and presentation.

How are artworks cared for and by whom? What criteria, methods and processes are used to select work for preservation or presentation? Why do people value objects, artifacts and artworks, and select them for presentation?

Artists, curators and others consider a variety of factors and methods including evolving technologies when preparing and refining artwork for display and or when deciding if and how to preserve and protect it.

What methods and processes are considered when preparing artwork for presentation or preservation? How does refining artwork affect its meaning to the viewer? What criteria are considered when selecting work for presentation, a portfolio, or a collection?

Objects, artifacts and artworks collected, preserved or presented either by artists, museums, or other venues communicate meaning and a record of social, cultural and political experiences resulting in the cultivating of appreciation and understanding.

What is an art museum? How does the presenting and sharing of objects, artifacts and artworks influence and shape ideas, beliefs and experiences? How do objects, artifacts and artworks collected, preserved, or presented, cultivate appreciation and understanding?

VA.K-2.1.5.2.Pr6a

Explain what an art museum is and identify the roles and responsibilities of the people who work in and visit museums and exhibit spaces. Analyze how art exhibits inside and outside of schools (such as museums, galleries, virtual spaces, and other venues) contribute to communities.

Individual aesthetic and empathetic awareness developed through engagement with art can lead to understanding and appreciation of self, others, the natural world, and

constructed environments. Visual arts influences understanding of and responses to the world.

How do life experiences influence the way you relate to art? How does learning about art impact how we perceive the world? What can we learn from our responses to art? What is visual art? Where and how do we encounter visual arts in our world? How do visual arts influence our views of the world?

VA.K-2.1.5.2.Re7a

Identify works of art based on personal connections and experiences. Describe the aesthetic characteristics within both the natural and constructed world.

VA.K-2.1.5.2.Re7b

Describe, compare and categorize visual artworks based on subject matter and expressive properties.

What is the value of engaging in the process of art criticism? How can the viewer "read" a work of art as text? How does knowing and using visual art vocabulary help us understand and interpret works of art?

VA.K-2.1.5.2.Re8a

Categorize and describe works of art, by identifying subject matter, details, mood, and formal characteristics.

How does one determine criteria to evaluate a work of art? How and why might criteria vary? How is a personal preference different from an evaluation?

VA.K-2.1.5.2.Re9a

Use art vocabulary to explain preferences in selecting and classifying artwork.
