

Unit 2

Content Area: **Technology**
Course(s): **Technology 2**
Time Period: **December**
Length: **Trimester 2**
Status: **Published**

Unit 2 Overview (Trimester 2)

Students in Second-Grade will explore various digital tools during Trimester 2.

The students will work with text, photos, and illustrations to create original stories.

Spreadsheets and data will be introduced, and students will learn how to create simple spreadsheets with data they have collected.

The students will also practice the foundational skills necessary to use digital tools successfully. Digital Citizenship and Internet Safety will also be emphasized as appropriate.

Unit 2 Essential Questions

- How can I store data to make it easy to use?
- How can I use digital tools to present original ideas?

Unit 2 Priority Standards

CS.K-2.8.1.2.CS.1	Select and operate computing devices that perform a variety of tasks accurately and quickly based on user needs and preferences.
CS.K-2.8.2.2.ED.1	Communicate the function of a product or device.
CS.K-2.8.2.2.ED.2	Collaborate to solve a simple problem, or to illustrate how to build a product using the design process.
CS.K-2.8.2.2.ED.3	Select and use appropriate tools and materials to build a product using the design process.

Unit 2 Learning Goals

Learning Goals

- I can tell an original story using multiple digital tools and resources.
- I can create original works as a means of personal or group expression.
- I can apply digital tools to gather, evaluate, and use information.
- I can use digital tools and online resources to explore a problem or issue.

Targets

- I can create a
- I can create a
- I can apply d
- I can use dig

- I can enter information into a spreadsheet and sort the information.
- I can identify the structure and components of a database.
- I can enter in:
- I can identify

FOUNDATIONAL LEARNING GOALS

Learning Goals

- I can use digital tools to access, manage, evaluate, and synthesize information in order to solve problems and collaborate with others in order to create and communicate knowledge.

- I can apply digital tools to gather, evaluate, and use information.
- I can create original works as a means of personal or group expression.
- I can enter information into a spreadsheet and filter the information.
- I can enter information into a spreadsheet and sort the information.
- I can identify the structure and components of a database.
- I can use digital tools and online resources to explore a problem or issue.
- I can use digital tools and online resources to explore a problem or issue.
- I can tell an original story using multiple digital tools and resources
- I can use digital tools.

Unit 2 Targets

- I can apply digital tools to gather, evaluate, and use information.

- I can identify the structure and components of a database.
- I can plan how to solve a problem.
- I can use digital tools and online resources to explore and learn.
- I can create an original story using multiple digital tools and resources.
- I can create an original work to express my ideas.
- I can enter information into a spreadsheet and filter the information.
- I can enter information into a spreadsheet and sort the information.
- I can use digital tools.

Unit 2 Learning Plan

Class Standard Description

Targets

Week
10

- Illustrate and communicate original ideas and stories using multiple digital tools and resources.
- Create original works as a means of personal or group expression.
- Students apply digital tools to gather, evaluate, and use information.
- Use digital tools and online resources to explore a problem or issue.

- I can create an original story using multiple digital tools and resources.
- I can create an original work to express my ideas.
- I can apply digital tools to gather, evaluate, and use information.
- I can use digital tools and online resources to explore and learn.

Week
11

- Illustrate and communicate original ideas and stories using multiple digital tools and resources.
 - Create original works as a means of personal or group expression.
 - Students apply digital tools to gather, evaluate, and use information.
 - Use digital tools and online resources to explore a problem or issue.
- I can create an original story using multiple digital tools and resources.
 - I can create an original work of art to express my ideas.
 - I can apply digital tools to gather, evaluate, and use information.
 - I can use digital tools and online resources to explore and learn about a problem or issue.

Week
12

- Illustrate and communicate original ideas and stories using multiple digital tools and resources.
- Create original works as a means of personal or group expression.
- Students apply digital tools to gather, evaluate, and use information.
- Use digital tools and online resources to explore a problem or issue.

- I can create an original story using multiple digital tools and resources.
- I can create an original work to express my ideas.
- I can apply digital tools to gather, evaluate, and use information.
- I can use digital tools and online resources to explore and learn.

Week
13

- Illustrate and communicate original ideas and stories using multiple digital tools and resources.
- Create original works as a means of personal or group expression.
- Students apply digital tools to gather, evaluate, and use information.
- Use digital tools and online resources to explore a problem or issue.

- I can create an original story using multiple digital tools and resources.
- I can create an original work to express my ideas.
- I can apply digital tools to gather, evaluate, and use information.
- I can use digital tools and online resources to explore and learn.

Week
14

- Illustrate and communicate original ideas and stories using multiple digital tools and resources.
- Create original works as a means of personal or group expression.
- Students apply digital tools to gather, evaluate, and use information.
- Use digital tools and online resources to explore a problem or issue.

- I can create an original story using multiple digital tools and resources.
- I can create an original work to express my ideas.
- I can apply digital tools to gather, evaluate, and use information.
- I can use digital tools and online resources to explore and learn.

Week
15

- Enter information into a spreadsheet and sort the information.
- Identify the structure and components of a database.
- Enter information into a database or spreadsheet and filter the information.

- I can enter information into : spreadsheet and sort the info
- I can identify the structure a components of a database.
- I can enter information into : spreadsheet and filter the inf

Week
16

- Enter information into a spreadsheet and sort the information.
- Identify the structure and components of a database.
- Enter information into a database or spreadsheet and filter the information.

- I can enter information into : spreadsheet and sort the info
- I can identify the structure a: components of a database.
- I can enter information into : spreadsheet and filter the inf

Week
17

- Enter information into a spreadsheet and sort the information.
- Identify the structure and components of a database.
- Enter information into a database or spreadsheet and filter the information.

- I can enter information into : spreadsheet and sort the info
- I can identify the structure a: components of a database.
- I can enter information into : spreadsheet and filter the inf

Week
18

- Enter information into a spreadsheet and sort the information.
- Identify the structure and components of a database.
- Enter information into a database or spreadsheet and filter the information.

- I can enter information into : spreadsheet and sort the info
- I can identify the structure a: components of a database.
- I can enter information into : spreadsheet and filter the inf

Week
19

- Enter information into a spreadsheet and sort the information.
- Identify the structure and components of a database.
- Enter information into a database or spreadsheet and filter the information.

- I can enter information into : spreadsheet and sort the info
- I can identify the structure a: components of a database.
- I can enter information into : spreadsheet and filter the inf

Week
20

- All students will use digital tools to access, manage, evaluate, and synthesize information in order to solve problems individually and collaborate and to create and communicate knowledge.

- I can use digital tools to access, manage, evaluate and synthesize information in order to solve problems and collaborate with others in order to create and communicate knowledge.

Unit 2 Assessments

- Keyboarding Assessment: Online Test
- Navigation Skills: Teacher Observation
- Original Creation: Document Assessment using Rubric
- Spreadsheet Assessment: Document Assessment using Rubric
- Vocabulary: Online Assessment

Technology

- Individual Student Chromebooks
- Promethean Board
- Teacher PC/Chromebook

Materials & Resources

- Internet Access
- Program Access: Keyboarding Practice
- Program Access: Student Learning Platform
- Program Access: Word Processing

Career Readiness, Life Literacies, & Key Skills

- | | |
|-----------------|--|
| TECH.9.4.2.CI.1 | Demonstrate openness to new ideas and perspectives (e.g., 1.1.2.CR1a, 2.1.2.EH.1, 6.1.2.CivicsCM.2). |
| TECH.9.4.2.CI.2 | Demonstrate originality and inventiveness in work (e.g., 1.3A.2CR1a). |
| TECH.9.4.2.DC.1 | Explain differences between ownership and sharing of information. |

TECH.9.4.2.DC.5

Explain what a digital footprint is and how it is created.

TECH.9.4.2.TL.7

Describe the benefits of collaborating with others to complete digital tasks or develop digital artifacts (e.g., W.2.6., 8.2.2.ED.2).

21st Century Themes

WRK.9.2.8.CAP.4 Explain how an individual's online behavior (e.g., social networking, photo exchange, video postings) may impact opportunities for employment or advancement.

Today, we live in a technology and media-driven environment, marked by access to an abundance of information, rapid changes in technology tools and the ability to collaborate and make individual contributions on an unprecedented scale. Effective citizens and workers must be able to exhibit a range of functional and critical thinking skills, such as:

- Information Literacy
- Media Literacy
- ICT (Information, Communications, and Technology) Literacy
 - ICT (Information, Communications, and Technology) Literacy
 - Information Literacy
 - Media Literacy

Interdisciplinary Connections

Literacy and language arts in the technology context: writing, programming, word processing, and creativity with language

Science: understanding of computer components, operations of touchscreens and other user devices

Social Studies: Computers in the context of society; our relationships to computers as a tool

Health: Limits to screen time and healthy relationships with technology, online technologies
