GRADE 4– PE Unit 1

Mission Statement

The primary goal of the Swedesboro-Woolwich School District is to prepare each student with the real life skills needed to compete in a highly competitive global economy. This will be achieved by providing a comprehensive curriculum, the integration of technology, and the professional services of a competent and dedicated faculty, administration, and support staff.

Guiding this mission will be Federal mandates, including No Child Left Behind, the New Jersey Core Curriculum Content Standards, and local initiatives addressing the individual needs of our students as determined by the Board of Education. The diverse resources of the school district, which includes a caring PTO and active adult community, contribute to a quality school system. They serve an integral role in supporting positive learning experiences that motivate, challenge and inspire children to learn.

Unit/Module Overview

In fourth grade, students focus on the importance of motor skills and movement concepts to be successful in physical activity and/or sports. The FITT principles are introduced. Students develop a deeper understanding of the four fitness components. Students continue to work successfully in a group, regardless of personal differences. The Rationale of Lifetime Fitness is to provide students with knowledge and skills in order to improve levels in five areas of fitness, cardiorespiratory endurance, muscular strength, muscular endurance, body composition, and flexibility. With participation in all activities students will see improvement and learn to set short and long term goals which can help in other areas of life. Becoming physically fit can build confidence and esteem and can help students maintain concentration resulting in academic improvement in other classes.

Students will be engaged in content and practices regarding:

- Physical activity involves using motor skills & knowledge of movement concepts.
- It is important to be able to participate in cardiovascular activities for an extended amount of time.
- It is important to know how to improve the four components of physical fitness.
- Participation in physical activities/sports can provide an opportunity for developing an understanding and respect for differences among people
