

Grades 6 Health Unit 3: Growth & Development

Content Area: **Physical Education & Health**
Course(s):
Time Period: **March**
Length: **4 weeks**
Status: **Published**

Unit Overview

Many students cannot recognize the parts of the body. They could give it one generalized name (sometimes slang term) and that's it. This unit will help students recognize the different parts of their reproductive system and their functions. They will also learn about the physical, mental/emotional, and social changes they are going through or will be going through in the future. Students will recognize these changes are normal and the majority of people experience them. They will also understand that puberty happens at different times for everyone.

In unit 3, students will engage with content regarding:

- Changes males go through during puberty
- Changes females go through during puberty
- Proper terminology for genitalia
- Changes during puberty are not only physical
- Process of menstruation
- Males produce sperm and Females produce an egg.
- We inherit characteristics from ancestor's gene pool.
- Stages of the life cycle

Learning Targets

Students will be able to:

- Recognize changes during puberty for female, male or both.
- Recognize body parts of each gender
- Label body parts
- Explain how to care for the body
- Recognize which stage of the life cycle someone is

Essential Questions

- In which ways have your body changed in the last few years and what are the purpose of change?
- Why is it important to know the parts and functions of the male and female reproductive system?
- Why is it important to develop goals during different stages of your life?
- Why do you think the teen years are not a good time for becoming a parent?
- What traits did you inherit from you parents?

NJ Student Learning Standards

HE.6-8.2.1.8.PP.1	Describe pregnancy testing, the signs of pregnancy, and pregnancy options, including parenting, abortion, and adoption.
HE.6-8.2.1.8.PP.2	Summarize the stages of pregnancy from fertilization to birth.
HE.6-8.2.1.8.PP.3	Identify prenatal practices that support a healthy pregnancy and identify where to find medically accurate sources of information about prenatal care.
HE.6-8.2.1.8.PGD.1	Explain how appropriate health care can promote personal health.
HE.6-8.2.1.8.PGD.2	Analyze how genetics and family history can impact personal health.
HE.6-8.2.1.8.PGD.3	Describe the human reproductive systems, the external and internal body parts and their functions, and the natural variations that exist in human bodies.
HE.6-8.2.1.8.PGD.4	Analyze the relationship between healthy behaviors and personal health.
HE.6-8.2.1.8.SSH.1	Differentiate between gender identity, gender expression and sexual orientation.

Enduring Understandings

Many factors can influence an individual's choices when selecting a balanced meal plan, which can affect nutritional wellness.

Assessments

- Completion of writing assignments and written test
- Completion of teacher created assessment
- Successful completion of skill/content sheets
- Homework assignments with Google Classroom
- Notebook Participation

Career Awareness, Exploration, Preparation, and Training

WRK.9.2.8.CAP.3

Explain how career choices, educational choices, skills, economic conditions, and personal behavior affect income.

21st Century Skills

TECH.9.4.5.CI.3	Participate in a brainstorming session with individuals with diverse perspectives to expand one's thinking about a topic of curiosity (e.g., 8.2.5.ED.2, 1.5.5.CR1a).
TECH.9.4.5.CT.2	Identify a problem and list the types of individuals and resources (e.g., school, community agencies, governmental, online) that can aid in solving the problem (e.g., 2.1.5.CHSS.1, 4-ESS3-1).
TECH.9.4.5.CT.4	Apply critical thinking and problem-solving strategies to different types of problems such as personal, academic, community and global (e.g., 6.1.5.CivicsCM.3).
TECH.9.4.5.GCA.1	Analyze how culture shapes individual and community perspectives and points of view (e.g., 1.1.5.C2a, RL.5.9, 6.1.5.HistoryCC.8).

Interdisciplinary Connections

Science

K-LS1-1. Use observations to describe patterns of what plants and animals (including humans) need to survive.

K-ESS3-3. Communicate solutions that will reduce the impact of humans on the land, water, air, and/or other living things in the local environment.

MS-LS1-5 . Construct a scientific explanation based on evidence for how environmental and genetic factors influence the growth of organisms.

- Connections to health processes associated with physiology and anatomy
- Basic understanding of communicability of diseases in discussion of wellness

ELA

NJSLSA.R1. Read closely to determine what the text says explicitly and to make logical inferences and relevant connections from it; cite specific textual evidence when writing or speaking to support conclusions drawn from the text.

RI.2.1. Ask and answer such questions as who, what, where, when, why, and how to demonstrate understanding of key details in a text.

RI.3.7. Use information gained from text features (e.g., illustrations, maps, photographs) and the words in a text to demonstrate understanding of the text (e.g., where, when, why, and how key events occur).

RI.2.7. Explain how specific illustrations and images (e.g., a diagram showing how a machine works)

contribute to and clarify a text.
