Unit Overview

Our community is made up of people from many different backgrounds, cultures, and traditions. In this second unit, the goal is for students to develop an appreciation for different cultures and discover the similarities and differences between families. Students and teachers in a diverse classroom accept and celebrate all people. They will understand what it means to take care of themselves, their family, and other community members. Students will learn about ways that people are alike and different from one another and that this is what makes each person unique and special. Students will explore how they can respect others who are different from themselves. They will also learn about life cycles through our Literature lessons on Zoology. These will connect to how parents take care of their children and how environments can affect daily lives.
