Course(s): **Reading/Phonics K**
Time Period: **December**
Length: **60 Days**

Ecology Research Lab -- Overview (Summary)

The third unit of ARC is focused on Ecology and will be implemented throughout the entire second trimester. Unit 3 is also built on research-based best practices in science inquiry and early literacy. The unit is twelve weeks in length (Follow Kindergarten Pacing Guide). Each lesson is based on one key life science concept and an integral framework of standards in language arts and science inquiry.

During this Unit of Study students will:

- Learn about ecosystems
- Strengthen their reading skills through the study of different types of ecosystems – polar, oceans, plains, savannas, grasslands, prairies, deserts, woodlands/forests, tropics, mountains, wetlands/marshes, and freshwater rivers/lakes/ponds
- Learn to think like a scientist
- Learn to work together

Teachers will use formative assessment throughout the day to monitor, support, and document individual student progress toward these goals.

This unit will consist of the following components: Each component will help the students complete a research project about wild and endangered animals: Morning Message: Teachers will begin each day with a Morning Message using Interactive Writing to reinforce foundational skills. Interactive Read Aloud: Students will learn content, background knowledge, and academic language through these read alouds. Teachers will also use this time for modeling and asking and answering questions; Readers' Workshop: Students will read non fiction texts about animals. As students continue to research an animal they will ask and answer the following questions:

1. What is an ecosystem? What ecosystem are we studying/
2. What living and nonliving things exist in this ecosystem?
3. What are the main characteristics of this ecosystem?
4. How is energy used in the ecosystem?

Daily Five Centers: Students will work in differentiated learning stations both independently and cooperatively to reinforce reading and writing skills.

****In addition, It is recommended that students log onto their iReady My Path for a total of 40 minutes per week. This can be chunked into smaller increments throughout the week. Students will complete an iReady diagnostic test once each trimester.**

Unit 3 Learning Goals

Read-Aloud

Reading Culture Goals

- Students should enjoy a minimum of 25 high-interest read-alouds each week. Across the rest of the Unit, continue to read aloud to your students from anywhere and everywhere. Use read-aloud time to nurture your academic community, sell great books, build vocabulary, and expand students' knowledge about literature and the world. Record the title(s) on your Read-Aloud Class Chart.

Independent Reading

- Get in as much eye-on-the-page Independent Reading each day as possible, in as many short sessions as it takes to reach 30+ minutes. Students should be able to achieve 30 minutes of in-school Independent Reading daily. Provide time as needed to ensure every student reaches this goal.
