# **GRADE K- Units 1-5 Character Education (Trimesters 1, 2 and 3)**

#### **Mission Statement**

The primary goal of the Swedesboro-Woolwich School District is to prepare each student with the real life skills needed to compete in a highly competitive global economy. This will be achieved by providing a comprehensive curriculum, the integration of technology, and the professional services of a competent and dedicated faculty, administration, and support staff.

Guiding this mission will be Federal mandates, including No Child Left Behind, the New Jersey Core Curriculum Content Standards, and local initiatives addressing the individual needs of our students as determined by the Board of Education. The diverse resources of the school district, which includes a caring PTO and active adult community, contribute to a quality school system. They serve an integral role in supporting positive learning experiences that motivate, challenge and inspire children to learn.

### **Character Education Unit Overview**

In Units 1-5 students will learn to:

- Acquire the knowledge and skills of what is most essential to become individuals who possess health and physical literacy and pursue a life of wellness by developing the habits necessary to live healthy, productive lives that positively impact their families, schools and communities.
- Develop understanding of personal growth and development, emotional health, social health and community health services and support as outlined in Comprehensive Health and Physical Education Standards 2.1- Personal and Mental Health.

# Grade K: Units 1-5. Character Education Learning Activities and Pacing Guide

# Units are categorized under domains of learning:

Personal Growth and Development, Pregnancy and Parenting, Emotional Health, Social Health and Community Health Services and Support.

Pacing of units across three trimesters with progression through each domain may vary based on class needs. Resources and activities are suggested and possible connections that can be made to NJSLS Personal and Mental Health Standards 2.1.

# Kindergarten Unit 1 Overview: Personal Growth and Development

In this unit, students will understand that personal growth and development are lifelong processes of physical, behavioral, emotional, and cognitive change throughout one's lifetime. Individuals grow at different rates and enjoy a variety of activities to maintain health and healthy habits. Personal growth and development encompasses the human condition: who we are, how we grow or evolve, and how we interact with others.

Kindergarten Unit 3 Overview: Emotional Health

In this unit, students will identify emotional health through basic understanding of views, feelings, and expressions about oneself. Emotional health includes a person's emotional, mental, psychological, and social well-being. It also helps determine how to handle stress and make choices related to others. Emotionally healthy people consciously develop coping mechanisms that are situationally appropriate to resolve and gather positive outcomes, develop strategies for mental health emergencies, respond to situations in a positive and appropriate manner, connect with resources and trusted individuals to assist, communicate feelings with confidence, and recognize support systems.

# **<u>Diversity, Equity, and Inclusion Goals</u>** (Links to State Resources)

Our district is committed to supporting all of our diverse learners and allowing students to be exposed to <u>Culturally Responsive Practices</u>. Below is a list of our goals for supporting these practices throughout our district and classrooms.

- 1. Cultivate respect towards minority groups to foster appreciation of their differences as well as recognize their literary contributions.
- 2. Evaluate experiences of people of diverse backgrounds and their unique journeys, including challenges and successes, and their significant historic contributions to the economic, political, and social development of New Jersey and the United States.
- 3. Analyze grade-level texts highlighting the contributions of persons of different genders, ethnicities, and abilities.
- Apply the design thinking process to develop empathy, challenging biases, to better understand different perspectives and experiences to creatively problem-solve and innovate solutions for diverse groups of people with specific needs.
- 5. Engage in authentic learning experiences that enable students to acquire and incorporate varied perspectives, and communicate with diverse audiences while applying content knowledge, integrating concepts across disciplines, and developing research, communication, and critical-thinking skills.
- Reflect on personal experiences and the experiences of others building empathy and promoting a climate of respect and acceptance of people with different backgrounds and abilities.
