Module Overview

When children hear the word explore, they may think about traveling great distances to faraway lands. However, children do not have to go far to explore. Stepping outside to observe the plants and animals in nature can provide opportunities for exploration. Exploration can also take place inside a good book! In this module, children will listen to and read texts that inspire them to look at the details in the world around them to learn new things.

Essential Question: How does exploring help us understand the world around us?
