Module Overview

On a cold and rainy day, you might stay inside and sip hot cocoa. When it's warm and sunny, you might ride your bike to the beach! In this module, children will learn how weather changes from day to day and from season to season. Through texts and collaborative work, children will explore types of weather they may experience quite often, or may never experience—such as blizzards or hurricanes. Children will also learn to notice how the weather affects them and their communities.

Essential Question: How does weather affect us?
