

GRADE 2– Module 6: Weather Wise

Mission Statement

The primary goal of the Swedesboro-Woolwich School District is to prepare each student with the real life skills needed to compete in a highly competitive global economy. This will be achieved by providing a comprehensive curriculum, the integration of technology, and the professional services of a competent and dedicated faculty, administration, and support staff.

Guiding this mission will be Federal mandates, including No Child Left Behind, the New Jersey Core Curriculum Content Standards, and local initiatives addressing the individual needs of our students as determined by the Board of Education. The diverse resources of the school district, which includes a caring PTO and active adult community, contribute to a quality school system. They serve an integral role in supporting positive learning experiences that motivate, challenge and inspire children to learn.

Unit/Module Overview

This poetry writing module invites students to explore self-expression through creative language while developing foundational grammar skills. It begins with exploring the topic of poetry, reading a focal text, and building vocabulary to support poetic expression. During the prewriting phase, students prepare to write their own poems by learning about pronouns—including subject, object, reflexive, and possessive forms—and how to use them correctly. This grammar foundation helps students clearly express thoughts and feelings in their poetry.

As students move into drafting, they choose a topic and explore key elements of poetry, such as rhythm, imagery, and structure. They organize their ideas and revise by integrating sensory details and using first-person point of view to create vivid, personal poems. Grammar lessons support their writing by reinforcing subject-verb agreement and proper verb forms like am, is, are, was, and were. The module ends with peer proofreading, publishing final drafts, and celebrating their work through sharing. Students develop both their writing voice and technical skills in this creative, confidence-building unit.

Standards Covered in Current Unit/Module
