Mystery Mixture

**Part 1. Observe the unknown mixture.**

1. Put on your safety goggles.
2. Put one 5 mL spoon of the mystery mixture into a cup.
3. Observe the mixture. (Do not touch or taste the mixture.)
4. Record your observations.

**Part 2. Add water.**

1. Add one pipette of water to the mystery mixture in the cup. Do not use the pipette to stir the mixture.
2. Observe. Take turns putting additional pipettes of water into the cup. Observe after each pipette of water.
3. Record your observations.
