

# DRUG EDUCATION POWER POINT PROJECT

The power point presentation is designed to show your technology expertise and present the information you gained through your research. Your goal is to present the research found from the drug brochure. Below is basic information required in your power point presentation, however your group may provide more detail to enhance your presentation and impress and capture the audience.

- ♦ *What is it?*
- ♦ *What is the category of drug?*
- ♦ *What are the common street/slang names?*
- ♦ *What does it look like?*
- ♦ *How is it used?*
- ♦ *What are the common side effects?*
- ♦ *What are the symptoms of overdose?*
- ♦ *Is this drug addictive?*
- ♦ *What are the withdrawal symptoms?*
- ♦ *What are the short-term effects?*
- ♦ *What are the long-term effects?*
- ♦ *What is the federal classification?*
- ♦ *List both myths and facts about the drug.*
- ♦ *List three (3) additional facts.*
- ♦ *Graphics and pictures.*
- ♦ *Attractive, well designed presentation.*
- ♦ *Be creative and feel free to incorporate more than the items listed above.*
